Four persons die as vehicle falls into gorge near Shimla

Shimla: Four persons died when a car in which they were travelling fell into a deep gorge at about 9 am near Nankah tookdown. The five persons were on their way to visit the home of a relative at Nankah. The accident occurred when the car encountered a 300-feet deep gorge on the Shimla-Dharmsala national highway. "The car was doing 60 kilometres per hour speed, we are investigating the cause of the accident," a police officer said.

Agri Bills in interest of farmers: Dalal

BUREAU
CHANDIGARH, SEPT 18

Haryana Agriculture and Farmers’ Welfare Minister, Mr. P. J. Dalal said that opposition parties can no longer mislead farmers on the Agri Bills that have been passed in the Lok Sabha and the Rajya Sabha.

"The opposition parties are trying to create a false environment by spreading misleading information in the hope of gaining political mileage. However, the farmers are well aware of the benefits that these bills will bring," said Dalal.

The minister further added that the bills will not only provide greater freedom to farmers to sell their produce directly to the market, but will also enable them to get better prices for their produce.

SC allows registration of BS-VI diesel vehicle purchased before April 1

After today’s Supreme Court order relaxation from the court, BS-VI diesel vehicle owners can get their vehicles registered in the state with older engine models.

A bench headed by Chief Justice of India Justice Dipak Misra allowed the registration of BS-VI diesel vehicles purchased before April 1, 2020 in the state. The bench also directed the state government to issue necessary guidelines and instructions for the registration of such vehicles.

The bench also directed the state government to ensure that the registration process is conducted in a fair and transparent manner.

The bench also directed the state government to ensure that the registration process is conducted in a fair and transparent manner.
Agriculture Department Giddarbaha was today celebrating the Virtual Farmer’s fair. This Kisan Mela was celebrated to provide technical information regarding ‘Agriculture and Farmer Wellbeing’ in order to enhance farmers’ knowledge and awareness about necessary practices in accordance with the guidelines of Covid-19. The entire staff of the Agriculture Department Giddarbaha was present on this occasion.

During the fair, Dr. Bikkar Singh Mallan and MLA Raja Wading’s PA Sunny have also been present. During the fair, Dr. Bikkar Singh Mallan and MLA Raja Wading’s PA Sunny have also been present. This Virtual Farmer’s fair was celebrated with the help of Punjab Agricultural University, Giddarbaha. "We are all always stand by the farmers, laborers and traders," said MLA Raja Wading. "We will always try to provide them with necessary information and support to enhance their productivity and earnings."

The fair was also aimed at creating awareness about the importance of using technology in agriculture for better crop management and sustainability. The fair included various stalls and demonstrations by experts and farmers to showcase innovative technologies and practices.

The fair was attended by farmers, laborers, and traders from various parts of the region. The attendees were impressed by the inclusive approach and innovative initiatives presented by the Agriculture Department Giddarbaha. The fair concluded with an oath that the department will continue to work tirelessly to improve the lives of farmers and contribute to the overall development of the region.

Friends, family not key to human happiness

Stroke scans could reveal Covid-19 infection

N ew research from King’s College London has found that Covid-19 causes more lung changes than previously thought. These findings could be used to improve diagnosis of the infection. Lead researcher, Dr Xiaodong Liu, said: “This paper provides an optimised approach to lung imaging on a scale that genuinely enjoy their pandemic partners.” More than 400 study participants were asked to think back on times with either close family or family members they identified as friends. Haidhuber wondered, though, that families with similar partners were more likely to benefit from their relationships. He suggests those with similar partners may have similar personalities, for instance, which could make it difficult for them to benefit from their relationships.

Editorial

Call to break Chinese monopoly

A n international collaboration involving multiple universities across the globe has suggested that the world may never fully recover from Covid-19 as the pandemic will impose a new set of challenges for patients complicating during pregnancy. While it is well known that adult skin cells can be reprogrammed into cells similar to human embryos, the use of this technology from those human organs, together with Australian Professor Dean Radin from the University of Western Australia, has recently revealed the existence of human embryonic stem cells (HESC), which can be used to treat diabetes, spinal cord injuries, and other diseases.

POEMS

Salutation

We who ever had remembered the depth of my being, in the twilight of plagues and of-glimpses; who never opened her eyes to the light, will be the last gift to thee, my God, following in my final song.

Words have woeed yet failed to win her

persuasion has stretched to her eager arms in vain; I have roamed from country to country keeping her in the core of my heart, and around her have risen and fallen the stars of my destiny. Over my thoughts and actions, my slumberers and dreams, my nights designed yet dwelled alone and apart.

Many a man knocked at my door and asked and turned away in despair. There was none in the world who ever saw her eyes to the light, and she remained in her loneliness waiting for thy recognition.

(Rahul Ranjan Thakur)

Call to break Chinese monopoly

For a moment, India has been consistently recording the highest daily infection rate in the world for the second consecutive month. Thirteen days after the 23.9 per cent reduction in the daily case fatality rate was announced, the Indian government reached the 100,000 mark in the last 10 days. This has already reached the headlines and IMB’s recently released interactive infographic on the number of infections shows that India missed 15 cases. Independent trackers are reporting a slightly higher death toll than the health ministry. According to Worldmeter, India has 51,185,231 confirmed cases and 83,230 people have died due to Covid-19. This is in addition to an independent estimate of 501,000 people who have lost their lives due to lockdowns. The government has denied this last report on the number of fatalities, citing the need for a more accurate and reliable source of information. There will be no financial support for the families of those who have died, as the government is struggling to pay state GST compensations. The state, however, has acknowledged that the statistics are skewed by 5-10 per cent. The only hope for citizens is in the quick discovery and distribution of a Coronavirus vaccine. On this account, Hyderabad-based drug maker Dr Reddy’s Laboratories is ready for clinical trials of Russia’s Sputnik V vaccine in India and the UK. In a Pisces Platter:...
Bhim Armey meeting held

PANKAJ KATNA
SANTOSHGARH: District level meeting of Bhim Army Himachal Pradesh was held late in the evening at the Guest House, President of General Bhim Army, Santoshlal Saini and ex-General Bhim Army, Pankaj Katna of Sangthan in the local city, in which Ramesh Chauhan, President of Bhim Army, Hoshiner, and other leaders of the party participated. In charge, General Bhim Army, Pankaj Katna addressed the gathering and shared that the Bhim Army arrives in every state of the country to ensure that the government will make everyone aware of its message. In this meeting, Ramesh Chauhan, President of Bhim Army, Hoshiner, said that the Bhim Army was established to promote unity among people, to end religious and caste-based discrimination, to ensure that the government will make everyone aware of its message. In the meeting, Ramesh Chauhan, President of Bhim Army, Hoshiner, said that the Bhim Army will continue to work for unity among people, to end religious and caste-based discrimination, to ensure that everyone will be treated equally before the law.

All India Khisan Sabha supports bandh call on Sept 25

The meeting of the 10-kisan unions including Punjab Khisan Sabha, All India Kisan Sabha leaders and the Sangarsh Committee was held on September 25. The meeting was attended by Sukhbir Singh Badal, Punjab Chief Minister Captain Amarinder Singh, Dr. Harpreet Singh Ladi, Rakesh Kumar Bitta among others.

The meeting decided to hold protest on Sept 25.

PM Modi's Arrogance

The farmers will not allow private jobs, pullers, pulses to come from roots of land and destroy Punjab's hilly and plains. Farmers would not shy away from consuming their bread and appealed to the people to donate blood for the service of humanity.

The farmers led by Congress party leader and former Finance Minister P Chidambaram and Union Agriculture Minister Narendra Singh Tomar in a meeting at his residence in the national capital, held a flag March to Parliament

The farmers are protesting against the three farm laws passed by the Parliament in September 2020. These laws, they say, will lead to the dismantling of the Minimum Support Price (MSP) system and make farmers vulnerable to the mercy of big corporates and mandis.

All India Kisan Sabha protests in support of farmers

In tune with the nationwide protests called by the All India Kisan Sabha, farmers from Bathinda have launched a protest against the three farm laws passed in the country.

The farmers in Bathinda are protesting against the three farm laws that were recently passed in the country and have been demanding the rollback of these laws. The farmers have been protesting for months demanding the annulment of these laws and the implementation of the Minimum Support Price (MSP) system.

The All India Kisan Sabha has been at the forefront of the farmers' protest since its inception in the country. The organization represents the interests of farmers across the country and has been fighting for their rights and welfare for many years.

The farmers have been demanding the withdrawal of the three farm laws, which they say will lead to the dismantling of the Minimum Support Price (MSP) system and make farmers vulnerable to the mercy of big corporates and mandis.

The farmers have been protesting against these laws for several months, and the government has not shown any signs of weakening its stance on these laws.

**Naomi pulls out of French Open due to hamstring injury**

**NEW DELHI, SEPT 18:** US Open champion Naomi Osaka on Friday announced that she will pull out of the French Open 2020 due to hamstring injury. Osaka took to Twitter and wrote, “Unfortunately I won’t be able to play the French Open this year. My hamstring is still sore and I won’t have enough time to prepare for the tournament.”

Ten thousand ticket holders were present in the Stade Roland Garros located at Paris, and said it was the right decision to play the tournament. Osaka added, “I love this tournament and it means a lot to me to be able to play here. But it is difficult for me to play at my best when I am not at my best.”

Osaka’s withdrawal is a big blow for the French Open, which was set to start on September 27 at Roland Garros, rescheduled from earlier in the year due to the coronavirus pandemic. Osaka registered 1-6, 6-3, 6-3 in her 25th appearance in the Grand Slam single singles. In the opening set, she tied the match to lead 6-3. In the second set, Osaka dominated and won 1-6, 6-4, 6-3. She will also be focusing on her training for the US Open which is scheduled to start on August 31.

Osaka is the first player to win three Grand Slam singles titles in a row and the only woman to win three singles titles in a row at a Grand Slam event. She has won the French Open title 2016, 2018 and 2020. Osaka won her 15th career singles title and her first title in Paris. She also won the 2018 US Open title in New York City, which is the only Grand Slam title she has won in the United States. Osaka is currently ranked 15th in the world and is the highest-ranked American woman in the WTA rankings. She started the year with a title in Qatar in Doha before moving on to win the Australian Open in January.
