Hails cabinet decision for increasing sugarcane prices

NEW DELHI: Prime Minister Narendra Modi on Thursday hailed the cabinet decision for hiking sugarcane prices and said, "This step will benefit the crores of our sugarcane producing farmers

On February 21, the Union Cabinet, chaired by Prime Minister Narendra Modi, approved a hike in sugarcane prices, known as the Fair and Remunerative Price (FRP), for the fiscal year 2024-25. "Our government is committed to fulfill every resolution related to the welfare of our farmer brothers and sisters across the country. A historic increase in the price of sugarcane purchases has been approved. This step will benefit crores of our sugarcane producing farmers," PM Modi stated in a social media post on his official X account.

It is noteworthy that the driving force behind our flourishing dairy sector is Bharat's Nari Shakti," the Prime Minister said.

"To make India developed, it is necessary to increase the economic power of every woman in India, hence today our government is also working all-round to increase the economic power of women," he

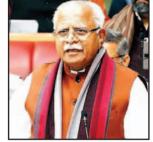

said. The PM said that about 70 per cent of the beneficiaries of the more than Rs 30 lakh crore provided by the government under Mudra Yojana are "sisters and daughters." During the last 10 years, the

number of women associated with the women Self Help Groups (SHGs) has crossed 10 crore!" he added. "Today, when India is moving ahead with women-led development, this success of India's dairy sector is a great inspiration for it," he said. The Prime Minister extended wishes to the Gujarat Cooperative Milk Marketing Federation on its golden jubilee saying that "the sapling planted by the villages of Gujarat 50 years back, has become a big banyan tree today." The branches of this tree have now extended across the country as well as the world, he added. "It's the wonderful synergy of 'Sarkaar' and 'Sehkaar' that Bharat has emerged as the world's largest milk producer. During the ongoing Budget Session of the Haryana Vidhan Sabha today, the no-confidence motion brought by Congress against the Haryana Cabinet led by Chief Minister, Sh. Manohar Lal was unanimously rejected.

Speaking in the House, the Chief Minister said that the Congress had previously brought a no-confidence motion in the year 2021 as well. At that time, there were about 3 and a half years were left in the government's ten-ure, and they (Congress) dreamt that if the government falls, they would come to power. But the Congress members again failed to seriously discuss any issue on no-confidence motion and

The Chief Minister said that the Opposition must bring no-confidence motion before the assembly election. so that Congress MLAs could once again pay attention to the development works done by the present state government, otherwise, Congress is habitual of leaving the House after expressing their views.

In a witty and poetic manner, Sh. Manohar Lal taunted the Congress MLAs, saying 'Mehfil mai chal rahi thi mere qatal ki taiyari, charcha karte karte bole ba hut lambi umar hai tumhari He said that the Congress has a culture of showing dis-

trust to everything. Whenever anything happens in the national interest, Congress never shows any confidence. Citing examples, the Chief Minister said that

when the discussion of removing Article 370 in Jammu and Kashmir was going on Congress expressed disbelief that it could not happen. In the case of triple talaq, Congress also expressed disbelief. Not only that, Congress did not have confidence that the temple of Lord Rama can be built.

PANCHKULA: The Bengaluru Bulls beat the Haryana Steelers 53-39 in the final league stage game of PKL Season 10 at the Tau Devilal indoor stadium in Panchkula on Wednesday Bulls' raider Sushil was imperious for his team registering an astounding 22 points, the difference between the teams on the day. In a blistering first half the Bulls were the ones who took the upper hand for the better part of the first quarter, and even inflicted the first ALL OUT to streak into an eight point lead. From there though, the Steelers slowly hit back their young raider Tejas Patil in particular inflicting constant damage on the Bulls defence. The Steelers hit back with an ALL OUT of their own to take a 16-15 lead with eight minutes of the half to go and seemed to be in control. But the topsy-turvy nature of the game meant no lead was ever safe, let alone that of a single point. The Bulls clawed their way back and right on the edge of time Sushil's SUPER RAID meant the teams went into halftime dead even at 24 apiece

Editorial Managed retreat

lobal warming and associated sea-level rise, salini-sation of agricultural land, and changing patterns Jof rainfall across the world are disrupting and de stroying livelihoods and making low-lying coastal areas and islands uninhabitable. According to World Bank's Groundswell report, climate change could lead to 216 million internal displacements by 2050. Hotspots of internal climate migration could emerge as early as 2030. Already, the number of disaster-related internal displacements exceeds the number of conflict-related displacements. According to the Internal Displacement Monitoring Centre, almost 98% of the disaster-related internal displacements in 2022 were caused by extreme weather events such as heat/cold waves, heavy downpours, cyclones and floods.

Movement of people is multi-causal. Specific movements are difficult to attribute to environmental change, especially to slow onset events such as desertification and rising sea level. Nevertheless, these movements are expected to increase, abruptly and in a non-linear manner. Solutions for people to move, for people on the move, and for people to stay will have to be found as different regions become increasingly uninhabitable.

Movement does not necessarily result in better outcomes and is known to lead to poverty and hardship, including loss of social and cultural ties. For some, movement is not even an option due to the erosion of financial and social resources by the effects of climate change.

Safe and orderly movement, otherwise known as managed retreat, away from deteriorating environmental conditions is a possible adaptation strategy that can diversify household incomes, improve living conditions, and result in positive development outcomes. However, the limited financial capacities of small island developing states and least-developed countries act as a major constraint. Governments in these countries are currently unable to guarantee livelihood opportunities and social security to, and the psychological well-being of, retreating populations. Despite their scanty role in the history of emissions, their populations are forced to face the consequences. This is climate injustice. Development deficit coupled with climate injustice moves them further away from the achievement of sustainable development goals. Climate injustice is also meted out to the climate-vulnerable, socio-economically disadvantaged populations in developed countries.

The UN climate change conference of 2023 took baby steps to address climate injustice. Years of debates and discussions finally resulted in an agreement to establish a dedicated Loss and Damage Fund

They checked the vessel's route plan, certificates, and licenses of its 11 crew members, according to Taiwan's coast guard, which said King Xia had "veered toward" the Chinese side of the water to avoid shoals. The unprecedented encounter with Chinese law enforcement at a time of heightened tension

"It's super scary," a passenger told Taiwan's United Daily News upon returning to shore. "(I was) so afraid that I wouldn't be able to come back to Taiwan.'

Kuan Bi-ling, head of Taiwan's Ocean Affairs Council, said Tuesday the incident triggered "panic" among the Taiwanese public. China also operates similar tour boats for its citizens.

casement, ere I went to rest, Did I look on great Orion sloping slowly to the West. Many a night I saw the Pleiads, rising thro' the mellow shade, Glitter like a swarm of fire-flies tangled in a silver braid. Here about the beach I wander'd, nourishing a youth sublime With the fairy tales of science, and the long result of Time; When the centuries behind me like a fruitful land reposed; When I clung to all the present for the promise that it closed:

When I dipt into the future far as human eye could see; Saw the Vision of the world and all the wonder that would be.

LS poll: Congress can field Dr. Kapoor Singh from Ambala seat

RAHUL KOHLI

JAGADHRI: For the Lok Sabha Elections - 2024 Congress can field Dr. Kapoor Singh from Ambala (Reserved) seat. He can give tough competition to the BJP candidate. He has the potential to win the seat. Due to the possibility of Lok Sabha elections being held in April, various political parties have started the

process of selection of candidates. There is a direct contest mainly between Congress and BJP on Ambala Lok Sabha seat. The Election Commission has kept the seat vacant by not conducting by-elections on the seat that had become vacant due to the death of Ratan Lal Kataria, MP from Ambala seat about a year ago. It is believed that BJP wanted to avoid this byelection. Now general elections can be announced in the next month, in view of this, Congress has also started the process of choosing its candidate. After the withdrawal of Indian National Congress general secretary Selja, who was a two-time MP from Ambala, some discussion about the name of Mullana's MLA Varun Mullana had started, but Varun Mullana has neither applied for the Lok Sabha election ticket. but has recently In the meeting held at the Congress Bhawan of Ambala Cantonment, he has publicly expressed his desire to contest the Assembly elections from Mulana instead of the Lok Sabha elections. In such a situation, the name of Dr. Kapoor Singh, who had contested the Lok Sabha elections in the year 2014, has emerged. Although 40 people have applied for tickets at the headquarters of Haryana Pradesh Congress Committee, but if we look at all those names, the clean and social image of Dr. Kapoor Singh seems to outweigh the other applicants.

Government should give Rs 1 crore compensation to the

martyred young farmer: Malaur AMBALA (MANISH KUMAR)-Former MLA and delegate Congress Committee Jasbir Malaur issued a press release and said that the Harvana government was re-

sponsible for the death of a young farmer at Khanauri border. He demanded that Rs 1 crore compensation should be given to the family of the martyred farmer and a case of murder should be registered against Chief

Minister Manohar Lal Khattar and Home Minister Anil Vii. The farmers were not on strike with any new demand but were agitating only to fulfill the

promise made to them by the BJP government. Mr Malaur said that it was a matter of

great sadness that on one hand the BJP government

broke its promise to the farmers on the issue of MSP, while on the other hand it was defaming the farmers by adopting cheap tactics. The former MLA expressed deep grief over the martyrdom of a young farmer at Khanauri border. Malaur said that today the farmers of the state were suffering the consequences of the government's neglect and dictatorship. He said that the weapons the government using were un-

authorized. On one hand, the government was pretending to talk to the farmers, while on the other, it was behaving like an enemy. He said that in reality the BJP government was not a grassroots party and the people of BJP are unaware of the problems and issues of the farmers. BJP government was only a government of capitalists. The only goal of BJP was to fill the pockets of capitalists by looting the hard-earned money of hardworking people.

District Rewari. The State Government earmarked 200 acres (approx.) of land in village Manethi, District Rewari (Haryana) for setting up AIIMS. Gram Panchayat Manethi was to lease 224 Acre 7 Kanal 7 Marla Panchayat land for 99 years for the pur-

pose of establishment of AIIMS. However, the said Panchayat land was found to be in Aravali plantation area and Forest Advisory Committee (FAC) of the Union Ministry of Environment, Forest and Climate changes did not approve the proposal. Thereafter, Government of Haryana explored the option of establishing AIIMS on some other suitable land and the demand was uploaded on e-Bhoomi portal of Government of Haryana by Medical Education and Re-search Department. e-Bhoomi portal was opened in the month of February 2020 and total 347.49 Acres land was offered from village Majra Mustil Bhalkhi. diagnostics. It's noteworthy that there is no restriction based on family size or age of family members, as disadvantaged families identified in the Socio-Economic Caste Census 2011 were declared eligible beneficiaries under AB-PMJAY by the Government of India, thus 28,89,287 individuals from 9,25,028 such families in Haryana were enrolled as beneficia ries under the scheme. The cost-sharing between the Government of India and the Haryana government for beneficiaries under AB-PMJAY is in the ratio of 60:40.

He mentioned that acknowledging the vast capacity of AB-PMJAY to enhance healthcare access, the Haryana government has extended coverage of Avushman Bharat to all Antyodaya families. Under the Chirayu (Comprehensive Health Insurance for

Antyodaya Units) scheme ini-tiated on November 21, 2022, all families with verified annual incomes up to Rs. 1.80 lakh are eligible for AB-PMJAY benefits. The entire expense of Antyodaya families under Chi-rayu is borne by the Haryana government. Furthermore, since August 14, 2023, the coverage of Chirayu scheme has been extended to families with annual incomes between Rs 1.80 lakh and Rs. 3 lakh, providing Rs. 1500 contribution per family per year. So far, 51,198 families have deposited their contribution under this scheme, and 2,969 beneficiaries have availed treatment worth Rs. 3.85 crore. He informed that the total number of beneficiaries (eligible and enrolled) is as follows: For SECC-2011 + Chirayu (up to 1.80 lakh income), the total eligible beneficiaries count is 1,69,04,563, out of which 1,10,16,063 beneficiaries

ing budget session of the Harvana Vidhan Sabha. He informed that 31 works were received, out of which 1 work has been completed and 13 works are in progress. The tendering process for 11 works is underway, he added.

The Minister of Development and Panchayats stated that works costing more than Rs. 5 lakh will be carried out through the tendering process. He mentioned that excluding 10-20 percent of the works, the cost of the remaining works ranged from Rs. 3-5 lakh.

These works were recommended for the Firozpur Jhirka assembly constituency by Sh. Mamman Khan under the Vidhayak Adarsh Gram Yojana for the financial year 2022-23. Sh. Babli said that the delay in the execution of these works occurred due to various reasons such as re-tendering, lack of participation in the bidding process, and the technical incompetence of local contractors leading to their non-participation in the online bidding process

On the other hand, Haryana Cooperation Minister Dr. Banwari Lal said that the government is making all possible efforts to ensure proportional and equitable distribution of resources to Scheduled Castes, but there is no proposal under consideration to implement the Spe cial Component Plan Act for Scheduled Castes and their development.
