Olympics: India win bronze in Hockey

AGENCY
PARIS, AUGUST 8

A brace from skipper Harmanpreet Singh and PR Sreejesh's effortless saves secured a bronze medal for India at the Paris Olympics with a 2-1 win over Spain at the Yves du Manoir Stadium on Friday.

While playing in an electrifying atmosphere, the Indian team added a fourth medal to their tally at the Paris Olympics, after being down 0-1 after the first quarter.

Sreejesh, who was playing his last game for India, went on the ground, filled with emotions, and the rest of the team joined him to celebrate the momentous occasion in India's hockey history.

India won consecutive bronze hockey

medals for the first time in 52 years since the 1972 Munich Games.

Under the reign of coach Craig Fulton, India created history and secured back-to-back bronze medals at the Olympics. Goals from Harmanpreet Singh (30', 33') for India were enough to get them across the finish line. For Spain, Marc Miralles (18') was the sole goal scorer.

India had an upper edge in their head-to-head record against Spain at the Olympics. In their ten meetings, as they had defeated the Spanish side seven times.

Emotions were running high, with India goalkeeper PR Sreejesh playing his final international game. He was given the title of the 'God of Indian Modern Hockey' by Hockey India before the bronze medal

game.

With the chants of 'India' echoing throughout the stadium, India tried to decipher Spain's defence at the beginning of the first quarter.

India sniffed the first opportunity in the bronze medal match after Hardik sent the ball to Sukhjeet, who sent the ball wide of the goalpost.

Jose Maria Basterra led the attack for Spain and kept the Indian team on their toes. In the ninth minute, he forced out a save from Sreejesh at the near post.

India posed tough questions from the opposition defence, but Spain effectively negated each attack thrown. The hooter rang, which brought an end to a goalless first quarter. The game started to open up

in the second quarter after Manpreet tackled Gerard Clapes inside the D, which led to a penalty stroke for Spain. Spanish captain Marc Miralles stood up to convert the opportunity and converted it with a top-corner finish. With a 1-0 lead, Spain continued to dominate India in the second quarter with their possession play. Bastera had an opportunity to double Spain's lead, but he failed to capitalise on the two penalty corner opportunities.

India had another sniff at the goal after Jarmanpreet trapped the aerial ball and passed it to Lalit. He went for glory but saw his attempt saved.

Spain fought back, and three minutes later, Lacalle missed the opportunity to extend their lead narrowly.

India punished Spain for not capitalising on their chances and equalised before the second quarter. Captain Harmanpreet Singh converted a penalty corner with his trademark drag flick, passing the ball through Calzado and Rodriguez to make the scoreline 1-1.

India went ahead for the first time in the game moments into the third quarter. It was yet another penalty corner for India, and Harmanpreet once again converted the opportunity to make it 2-1. Two minutes later, Harmanpreet found himself in another goal-scoring opportunity. With another penalty corner, the Indian captain was unable to convert it. Spain suffered a setback after Bonastre sustained an injury and was taken off the field.

Centre introduces Waqf (Amendment) Bill in LS, Oppn calls it draconian law

AGENCY
NEW DELHI, AUG 8

The Central government on Thursday introduced the Waqf (Amendment) Bill, 2024, in the Lok Sabha amid protest by the Opposition.

The Bill was introduced by the Union Minister of Minority Affairs Kiren Rijiju, aimed at amending the law governing Waqf boards, proposes far-reaching changes in the Waqf Act, 1995.

Speaking in the Lok

Sabha while introducing the Bill, Kiren Rijiju said, "This bill being brought today is based on the report of the Sachar committee which was made by the Congress and which called for reform.

"With this bill, there is no interference in the freedom of any religious body. Forget about taking anyone's rights, this bill has been brought to give rights to those who never got them" he added.

Soon after the Bill was introduced, Congress MP KC

Venugopal, who had submitted notice to oppose its introduction, accused the government of violating freedom of religion and attacking the federal system through it.

"This is a draconian law and a fundamental attack on the Constitution," Venugopal said.

Samajwadi Party leader Habibullah opposed the bill and said, "Waqf is a religious matter and this legislation is interference in religious practice".

Financial stability is challenge for the 'stable' CM

DR.RACHANA GUPTA

The 'Sukhu' government in Himachal Pradesh, which has recovered not only from natural disasters but from many calamities, is stable. Now the next challenge is to maintain financial stability in the state. During last one and a half years of congress government's power in Himachal, many political storms came, and the 'swaying' government couldn't work properly. This was the reason, neither the administration nor the MLAs themselves took the government's performance seriously. In the exercise of saving the chair and persuading the disgruntled, Congress ultimately won the game. Meanwhile, the BJP sitting in opposition suffered considerable loss

to obtain a Rajya Sabha seat.

Whether it was the terrible natural disaster that hit the state last year, or the case of his own people showing eyes to 'Sukhu' in the Rajya Sabha seat elections, or the by-elections along with the Lok Sabha, these were all Sukhu's political trials, and in these, he won the lost game along with getting his wife to the assembly.

This was the first time in the political history of Himachal Pradesh when someone got an opportunity in disaster itself during the storm of by-elections. This political disaster taught such a lesson to many enthusiastic leaders including Congress rebels, which was a clear message of not messing with the simple traditions of Dev Bhoomi like Himachal Pradesh.

Now it's time for the stable government to clean up the mud of political nests uprooted by the storm. While the

financial condition of the state is a big cause of concern for the government, the poor financial situation is also troublesome for employees, and people associated with horticulture and tourism businesses. Sensing this danger, Sukhu's Congress government in the state is taking bitter decisions. Or let's say, making impractical decisions more practical.

Himachal is neither a poor state, nor is there a situation of starvation. But people want to get the comfort of government jobs more than private or tourism business. This is where the political game is laid out. Creating the influence of employees on parties. The Congress government in the state had come to power on the issues of pension and wallet allowance. But pensions, salaries, allowances became so heavy that development works were questioned. On top of that, the fury of disaster. Increment, arrears payment is also

a long list leading increase of debt burden. Now it's imperative for the Sukhu government to take bitter decisions. In the cycle of pension, electricity also went out of hand and transport fare was charged on bags in buses. Apart from these economies, the government is trying to recover crores of rupees in Himachal from forests and electricity. For this, electricity and forest advisors have also made strong promises, but it seems difficult that the central government will accept the advocacy of the government of opposition parties.

In such a situation, two difficulties of the Congress government may increase in the coming time. First, the fulfilment of the incomplete promise of pension. That is, the displeasure of not getting pension in boards - corporations, constitutional institutions, second, tightening the reins on the scheme of free habit. 'Free' electricity closed, 'free' travel closed, 'free' water closed,

if these are closed then 1500 rupees going into the wallet will make a way. It is discussed that there was promise of giving free in the party manifesto but there was no declaration of closing the free schemes. From these decisions, the Sukhu government may face political difficulties, which BJP will exploit well. Neither will the centre government have mercy on Himachal, nor will Congress be able to bring a special budget to the state.

Overall, if Sukhu's scissors run on impractical decisions of half a decade, the financial condition will not improve in a jiffy, but it can be considered a step towards improvement. It is impossible to change the system of 50 years in just five years. Until solid policies are placed on the ground. Whether it's the path of self-reliance from tourism, or employment system for the people of the state, or rapid improvement and change in agriculture, horticulture

and animal husbandry. If future plans are run with administrative strength, system change will be visible in the next five years. For example, it should be decided that in five years all hotels of the Tourism Corporation will be in profit. Or there should be subjects related to skill job opportunities and teachers posts in schools and colleges will be filled.

There should not be a race for recruitment of Patwari and Constable. Every house should be healthy, every house should have drinking water. The path of every house should be safe. If these fundamental changes happen, there will be no need to close anything. For system change, the formula of change should be applied instead of 'closure'. Only in this way, stable Sukhvinder Singh Sukhucan find a way of financial stability along with political stability in the state.

Women can achieve anything with their determination: Dr. Baljit Kaur

RAJIV JAIN CHANDIGARH, AUG 8

Dr. Baljit Kaur, Minister of Social Security, Women and Child Development, today attended a program at Hotel Shivalik View as the chief guest, discussing the participation of women in politics in the context of the Nari Shakti Vandan Adhiniyam, 2023 (Women's Reservation Act). Addressing the gathering, Dr. Baljit Kaur stated that the Punjab Government, under the leadership of Chief Minister S. Bhagwant Singh Mann, is continuously working towards the empowerment of women. In line with this objective, the Punjab Government has implemented a Gender Budget. She mentioned that for the first time, a Gender Budget has been present-

ed in the state to eliminate gender-based inequality and ensure the equal distribution of resources. Dr. Baljit Kaur further highlighted that the political participation of women is very low at both state and national levels. She noted that whenever given an opportunity, women have made significant contributions in every field, whether it be sports, education, health services, police, or the army. She pointed out that women have always fought for their rights. Women now have the right to 50% reservation in Panchay-

ati Raj institutions and the act to reserve one-third of the seats for women in Parliament is being implemented. Dr. Baljit Kaur also remarked that the struggle for women's voting rights, which began in the early 1900s, transformed into a national movement. She mentioned that after independence, in 1950, the Indian Constitution granted voting rights to both men and women. As a result of these changes, the political participation of women in India is increasing, although many challenges still remain.

Editorial

Guns, not roses

For the past 51 months, the military crisis between India and China on the disputed border in eastern Ladakh has bedevilled the bilateral relationship between the two Asian giants. Despite 16 rounds of diplomatic talks and 21 rounds of military talks, the two armies remain arrayed against each other in an inhospitable terrain. This is the largest near-combat deployment by the People's Liberation Army since the end of the border conflict with Vietnam in 1987. The former US intelligence official, Dennis J. Blasko, suggests that this is the land domain equivalent of the PLA navy's reef expansion construction in the South China Sea and the deterrence operations conducted around Taiwan.

Blasko's analysis of satellite imagery since 2020 shows that the PLA has constructed enough fortified positions in the area to support a full division-size deployment (around 10,000 soldiers) on top of the two border defence regiments (approximately 5,000 soldiers) already assigned to the region. There are around 20,000 PLA soldiers deployed over the 250-mile front in the Aksai Chin, including engineer, artillery and other support elements, reaching back to a distance of over 20 miles. These forces, scattered across such a large frontage, may be insufficient for the PLA to launch a full-fledged military offensive in such a difficult terrain. But by indicating that the PLA is ready to maintain its deployments near the LAC in eastern Ladakh indefinitely, Beijing has put New Delhi in a bind. India finds its forces overstretched along the border and noises from the security establishment in New Delhi suggest a desire for an early resolution to the crisis. Eastern Ladakh, or the Karakoram plateau as the Chinese military media calls it, falls under the Western Theatre Command of the PLA. This is part of a new structure of command and control of the PLA which emerged a decade ago. The theatrisation of the PLA was one of the most important reforms initiated by Xi Jinping after he became the leader of China's communist party. As part of the ongoing reforms under Xi, the PLA has focused on preparing to fight under conditions of the 'Information Age', integrating its services, arms and systems into a joint, network-centric fighting force.

By all accounts, the PLA has been able to take major strides within a short period of time towards the completion of the unfinished business of reform. This is a testament to Xi's ability to push structural changes through a bureaucracy that has historically resisted them and an indication that the PLA is now on track to field a more professional and capable joint force to launch military operations.

The United States and Australia held ministerial consultations on Tuesday to strengthen the alliance and cooperation between the two countries in the Indo-Pacific region and globally.

US Secretary of State Antony Blinken and Secretary of Defence Lloyd Austin hosted Australian Foreign Minister Penny Wong and Deputy Prime Minister and Defence Minister, Richard Marles in Annapolis, Maryland.

They also announced a new four-year phase of the U.S. Agency for International Development (USAID) - Australia Mekong Safeguards Program to support strengthened environmental, social, and governance (ESG) standards for infrastructure development in the Mekong subregion.

US and Australia committed to conclude a space framework agreement to facilitate cooperation on civil space activities, including further cooperation on the US National Air and Space Agency's (NASA) Artemis program.

An inaugural Ministerial First Nations Dialogue, focused on advancing economic development, Indigenous rights and environmental stewardship with First Nations peoples in Australia and federally recognised tribes in the US, which builds on the US hosting of an Australian First Nations business leaders' delegation that enables knowledge-sharing on business development, the statement added.

The two nations signed an MoU by representatives of the Australian Department of Foreign Affairs and Trade (DFAT) and US Department of State (State) Diplomatic Security to establish exchanges in the areas of technical security, cyber security, and threat analysis.

They also agreed to co-host the Pacific Banking Forum, where the US and Australia committed to supporting the Pacific Islands Forum Secretariat's Correspondent Banking Relationship Roadmap and other efforts to address de-risking in the Pacific.

"I'm here because we believe in democracy. Everyone's voice matters, but I am speaking now. I am speaking now," Harris said. When the protestors did not relent, she said, "You know what, if you want Donald Trump to win then say that. Otherwise, I'm speaking." Harris after a meeting with Prime Minister Benjamin Netanyahu of Israel last month had stated that she would "always ensure that Israel is able to defend itself, including from Iran and Iran-backed militias, such as Hamas and Hezbollah."

"I've said it many times but it bears repeating, Israel has a right to defend itself, but how it does so matters," Harris said after

the meeting with Netanyahu. She also said that she is committed to "a path forward that can lead to a two-state solution." According to an analysis by the Hill, Michigan is home to a particularly high Arab American population, especially in the Detroit suburbs. Some Democrats have worried that the Biden administration's handling of the war in Gaza could cost them votes in November. Meanwhile, Harris and her running mate, Minnesota Governor Tim Walz traveled Wednesday to Wisconsin and Michigan.

POEM

Still Heart

When I give up the helm I know that the time has come for thee to take it. What there is to do will be instantly done. Vain is this struggle. Then take away your hands and silently put up with your defeat, my heart, and think it your good fortune to sit perfectly still where you are placed. These my lamps are blown out at every little puff of wind, and trying to light them I forget all else again and again. But I shall be wise this time and wait in the dark, spreading my mat on the floor; whenever it is thy pleasure, my lord, come silently.

How seaweed antioxidants help in prevention of Parkinson's

The neurodegenerative condition known as Parkinson's disease is transported by the loss of neurons that produce dopamine, a neurotransmitter essential for both motor control and cognitive function. The number of people with Parkinson's disease is rising quickly as the world's population ages. Reactive oxygen species overproduction damages neurones, which causes Parkinson's disease.

Because reactive oxygen species formation kills dopaminergic neurones, which control dopamine neurotransmitters, it must be suppressed. Since there is now just symptomatic treatment available, therapeutic regimens and preventative measures

must be developed. Fortunately, Associate Professor Akiko Kojima-Yuasa of Osaka Metropolitan University's Graduate School of Human Life and Ecology led a research group

that has verified the physiological effect of Ecklonia cava polyphenols, seaweed antioxidants, on the prevention of Parkinson's disease.

In this study, two types of motor function tests were conducted using Parkinson's disease model mice that were orally fed the antioxidants daily for one week and then administered rotenone. Results showed that motor function, which was decreased by rotenone, was restored.

There was also improvement in intestinal motor function and the colon mucosa structure, a special tissue that covers the colon.

Further, cellular experiments using Parkinson's disease model

cells verified the biochemical interaction of the preventive effect of Ecklonia cava. Validation results showed that the antioxidants activate the AMPK enzyme (adenosine monophosphate-activated protein kinase), an intracellular energy sensor, and inhibit the production of reactive oxygen species that cause neuronal cell death.

"This study suggests that Ecklonia cava antioxidants may reduce neuronal damage by AMPK activation and inhibiting intracellular reactive oxygen species production," stated Professor Kojima-Yuasa. "It is hoped that Ecklonia cava will be an effective ingredient in the prevention of Parkinson's disease."

This was apparent in a recent study commissioned by Amazon Alexa and conducted by Kantar among 750+ parents across six cities in June 2024. The survey reveals that about 54% of surveyed parents often feel that they don't have instant answers for kids' questions. It further indicates that 52% respondents instantly search and answer accurately if they don't know the answer. What's interesting to note is that 44% surveyed parents admitted to making up answers on the spot. Only 3% surveyed parents ignore the question or change the topic to stop the kid from asking questions "How to make a car?", "How big is the universe?", "How does an aeroplane fly?", and "How do fish breathe under water?", etc. are some of the curious questions asked by kids. About 60% of surveyed parents indicated that they often find themselves stumped when kids ask seemingly easy questions such as, "What season comes between winter and summer?", "Why do parents have to work?", and "Why do we wash vegetables?".

Being a victim of smartphone addiction: Dr. Makkad

AMRITSAR: From morning to night, the smartphone has become a companion every now and then. A recent study has raised concerns about the psychological distress caused by this blue screen to teenagers. According to this, teenagers who use smartphones too much are having problems like anxiety, depression and insomnia. This information was given by world famous psychiatrist Dr. Harjit Singh Makkad while addressing a seminar at Ranjit Avenue. He said that this study was conducted on a large group of teenagers aged 13 to 16 in Britain. Researchers have claimed that smartphones can cause anxiety, depression and insomnia in teenagers. In India, as soon as the battery of the smartphone is 20 percent or less, 72% of the users, i.e. three out of every four users get upset. In India, women put mobile phones in the hands of children to silence them. Especially children in the age group of four to eight are being given smartphones so that they can keep quiet and women can do their work. This is a very scary sign. These children are so addicted to the smartphone that they are not able to separate from it even for a moment.

Public has once again decided to hand over power to Congress: Nilay Saini

NIRMAL SAINI
RADAUR, AUG 8

When the BJP came to power, the state had a debt of about 60 thousand crores. But in the last 10 years, the BJP government looted the state in such a way that today the state has a debt of more than three lakh crores. This is the failure of the government.

The head of the state, Naib Saini, is now making continuous announcements, while these are only election slogans. He is trying to get the sympathy of the public by changing the decisions of his own government. Whereas the public has come to know that the BJP only makes empty announcements. If Naib Saini is changing the decisions of his former Chief

Minister, then former Chief Minister Manohar Lal should apologize for imposing wrong decisions on the public. These words were said by senior Congress leader Nilay Saini. He is addressing a press conference organized in Radaur. Nilay Saini said that the public is badly troubled by the BJP rule. Law and order has come to a standstill. Every day there is news of firing

Govt is playing with future of youth by making false promises: Kumari Selja

SHIV KUMAR SHARMA
SIRSA, AUG 8

The General Secretary of the All India Congress, former Union Minister, and MP from Sirsa, Kumari Selja Said that by making false promises, the deceptive BJP government of the state is playing with the future of the youth, just as the central government is doing with the Agniveers. The state government is playing the same game with HKRN employees. There are strikes happening all over the state. Employees, Anganwadi workers, teachers, doctors, nurses, clerks—almost every group is on strike. The farmers' strike continues; people are feeling insecure, scrambling for their livelihoods, and there is chaos all around, but the government is oblivious to all of this. She said that as soon as the Congress government comes into power in the state, the Haryana Skill

Employment Corporation will be dissolved, and permanent jobs will be provided to the youth. In a statement released to the media, Kumari Selja said that it is an old habit of the BJP government in the state to renege on promises. Farmers, laborers, youth, women, students, and employees are on strike in the state, while the deaf and dumb government is in a deep sleep. The strike by NHM employees has crippled health services. The strike has affected services like the

anemia program, vaccination ambulance services, cancer patient screenings registration of pregnan women, etc. But the government remains stubborn. The deceptive government is making false promises to complete its term because it knows that this time the BJP is going out and Congress is coming in. The central government has deceived the youth by recruiting Agniveers, and the state government is similarly playing with the future of the youth by recruiting under HKRN. She said that there are 108,000 vacant posts in government departments, while millions of youth stand in the unemployment queue. This BJP government, which is playing with the future of the youth, will be shown the way out by the youth. The youth have already shown a trailer of this to the BJP in the Lok Sabha elections across the country.

He has said that during the wrestlers' protest, wrestler Vinesh Phogat and her companions have suffered a lot of torture. The Narendra Modi government in power has tortured the wrestler daughters and dragged them on the streets.

If the Modi government at the centre and the Haryana state government are ashamed, then they should apologise to these daughters and increase the respect of these daughters. Vinesh Phogat, who brought pride to the country by winning three consecutive matches in the Paris Olympics, has been thrown out under some conspiracy. The Government of India should investigate this. Along with this, Vinesh Phogat should be sent to Rajya Sabha unopposed for the vacant Rajya Sabha seat in the state. Because sports lover and former Chief Minister of Haryana Bhupinder Singh Hooda has always boosted the morale of the players of Haryana state, due to which today the players of Haryana are increasing the pride of the country at the international level. To ensure that the players of Haryana keep moving forward at this pace, this important step should be taken to send Vinesh Phogat to Rajya Sabha to strengthen the broken confidence of the players.

Modi should call all-party meeting to save Hindus in Bangladesh: Shandilya

SHIV KUMAR SHARMA AMBALA, AUGUST 8

National President of Anti-Terrorist Front India, Viresh Shandilya said that the way terrorism is being spread in Bangladesh by overthrowing the government and attacks are being made on Hindus and Hindu temples, Prime Minister Narendra Modi should call an all-party meeting including opposition leader Rahul Gandhi and take initiative to save all the people including Hindus of Bangladesh who are victims of terrorism there and Viresh Shandilya said that former Prime Minister of Bangladesh Sheikh Hasina, who is in Delhi these days, took refuge

in bad times trusting India, in such a situation, the Indian government and the opposition should fully respect and protect Sheikh Hasina because no one forgets the help given in bad times. Anti Terrorist Front India's National President Veeresh Shandilya said that if the Indian government needs the members of Anti Terrorist Front India to save Hindus in Bangladesh, they are ready to go and the kind of terror spread in Bangladesh is not allowed by the law and constitution of any country.

The Prime Minister should talk to the opposition parties and use all his strength to protect Hindu

temples and Hindus in Bangladesh. Shandilya has appealed to the opposition leaders of India not to make any statement about Bangladesh which breaks the Hindu Mus-

lim brotherhood and the thinking of the people of India is not such that it can ever lead to such an incident in India. The governments of India think about every section since the country became independent. Although the country became independent in 1947 and the Muslims who wanted to go to Pakistan went, but the Muslims who remained in India are still considered as family by India, therefore the Indian government and the opposition should help Bangladesh in every possible way at this time, politics and rhetoric everywhere is not appropriate.
