Yogeshwar Dutt expresses willingness to contest Assembly elections

AGENCY NEW DELHI, AUG 30

BJP leader and Olympic Medal winning wrestler Yogeshwar Dutt expressed his willingness to contest the upcoming Haryana Assembly elections from the Gohana Assembly Constituency on Friday.
"I have expressed my wish to contest

elections to the Chief Minister and the central leadership. I am a sportsperson, and an Olympic medallist, and I have contested elections from BJP earlier also, so I want to get a chance", said Dutt while speaking to Journalists

He further added that he wants to contest from the Gohana assembly constituency and he has told the same to the leadership. "Now it is the time for elections, so I want to get a chance to contest from Gohana. I can't be certain about the future, but I have expressed my willingness, and I have told the leadership that I want to contest.",

Yogeshwar Dutt, who won an Olympic Medal in the 2012 Olympics was defeated by Congress nominee Indu Raj Narwal in a bypoll for the Assembly seat of Baroda in 2020. Dutt also lost the seat in 2019 to the Congress's three-time winner Krishan Hooda.

NIA raids Delhi, Punjab, Haryana, UP in Naxal recruitment case

NEW DELHI, AUG 30

The National Investigation Agency (NIA) on Friday conducted searches across four states in connection with a Naxal recruitment case involving leaders of the banned outfit, the agency said. The four states where the raids took place are Punjab, Haryana, Uttar Pradesh, and Delhi. The raids, which are still ongoing, are part of case RC-01/2023/NIA-LKW and targeted the premises of Naxal cadres and Over Ground Workers (OGWs).

NIA investigations have revealed that several frontal organisations and student wings have been tasked with motivating and recruiting as well as propagating Naxal ideology,

with the aim of waging war against the Government of India. According to the NIA, the accused conspired to commit acts of terror and violence in pursuit of this agenda. On September 6 last year, the NIA also cracked down on attempts by Naxal leaders and cadres of the CPI

(Maoist) to revive the banned

terrorist organisation, conducting raids across Uttar Pradesh. Those raids were carried out at the premises of the accused and suspects at eight locations in Prayagraj, Chandauli, Varanasi, Deoria, and Azamgarh districts of Uttar Pradesh. Several digital devices, including mobile phones, laptops, pen drives,

cards, were seized, along with SIM cards, Naxal literature, books, pamphlets, pocket diaries, money receipt and incriminating documents. The accused were conspiring to commit acts of terror and violence to further this agenda. Investigations have also revealed that Pramod Mishra was leading the cadres, sympathisers, and OGWs of CPI (Maoist) in efforts to revive the terror organisation.

Editorial On high alert

The northeastern states that share a border with turbulence-stricken Bangladesh include Tripura (856 kilometre), Meghalaya (443 km), Mizoram (318 km) and Assam (a total of 262 km along two stretches). Of these, Tripura is practically surrounded by Bangladesh and although much of this border is fenced, there are areas and enclaves where the access from and into the neighbouring country is easy, keeping the Border Security Force personnel on high alert.

Given the present unrest wherein the spectre of infiltration has assumed an alarming stance, the additional director-general of the BSF's eastern command held an operational conference in Calcutta with the inspectorsgeneral of all frontiers under this command and reviewed the border situation. According to a press statement after the meeting, "detailed deliberations were held to further enhance border control, security and management. Besides, it was decided to continue the close collaboration with counterpart Border Guard Bangladesh."

This was echoed by a senior BSF officer of the Tripura frontier. "We are holding meetings with our counterparts at all levels. The increased communication is basically to exchange information for prompt action at both ends. We are also having joint patrols with BGB along the international border and coordinating with all agencies and the state administration. There is heightened vigil along the border and village-level coordination meetings," he told me.

The concern in states like Tripura is the possibility of influx, particularly of Hindus and supporters of the former prime minister, Sheikh Hasina Wazed, and her Awami League. Although the head of the new interim government, Muhammad Yunus, assured India of the protection of Hindus, people continue to throng the border to cross over, either with medical visas or clandestinely. Meghalaya, too, has clamped night curfew along its border while Mizoram has restricted the movement of people by night. Tripura, which used to conduct a heartwarming flag-lowering ceremony at its border in Agartala, has now closed its international boundary with Bangladesh. There is also worry about the return of militant groups based in Bangladesh.

Travelling on a BSF border track along Bangladesh for nearly 30 km from Agartala to Kamalasagar (primarily fortified with barbed wire), I saw a single sentry at each post, armed with a rifle and a walkie-talkie, certainly no match for a gang of desperate smugglers or swarming infiltrators. Add to that the prospect of staring for hours at vast fields trying to decipher cows, drug smugglers or fleeing citizens while battling the vagaries of nature. Ill-equipped posts are soft targets.

India, China agree to jointly uphold peace, tranquility in border areas

India and China held the 31st meeting of the Working Mechanism for Consultation and Coordination on India-China Border Affairs (WMCC) in Bejing on Thursday, and the two sides decided to jointly uphold peace and tranquillity on the ground in border areas in accordance with relevant bilateral agreements and protocols, the Ministry of External Affairs said.

The two sides had a "frank, constructive and forward-looking" exchange of views on the LAC situation and also agreed to intensify contact through diplomatic and military channels.

The Indian delegation was led by Gourangalal Das, Joint Secretary (East Asia), Ministry of External Affairs and the Chinese delegation was led by Hong Liang, Director General of the Boundary and Oceanic Department of the Chinese Foreign Ministry.

"In line with the guidance provided by two Foreign Ministers' meetings in Astana and Vientiane in July 2024 to accelerate their discussion, and building on the WMCC meeting held last month, the two sides had a frank, constructive and forward-looking exchange of views on the situation along the Line of Actual Control (LAC) to narrow down the differences and find ear-

ly resolution of the outstanding issues. For this, they further agreed for intensified contact through diplomatic and military channels," MEA said in a press release. The two sides reiterated that the restoration of peace and tranquillity, and respect for LAC are essential for restoration of normalcy in bilateral relations. "In the meantime, they decided to jointly uphold peace and tranquillity on the ground in border ar-

eas in accordance with relevant bilateral agreements, protocols and understandings reached between the two Governments. It was reiterated that restoration of peace and tranquility, and respect for LAC are the essential basis for restoration of normalcy in bilateral relations," the statement added. The leader of the Indian delegation also called on the Vice Minister in the Chinese Ministry of Foreign Affairs. The

previous round of diplomatic talks between New Delhi and Beijing was held in August this year when the two sides agreed to uphold peace and tranquillity at the Line of Actual Control (LAC) and work for early resolution of outstanding issues. The two sides also reiterated that the restoration of peace and tranquillity, and respect for the LAC are an essential basis for the restoration of normalcy in bilateral relations.

Danish court rejects India extradition request in arms case

A Danish court on Thursday rejected the extradition request from India of a Danish national accused of being involved in a 1995 arms smuggling case, according to a report by Reuters.

For several years, India has been seeking the extradition of Niels Holck to face trial on suspicion of smuggling approximately four tonnes of weapons to a riot movement in West Bengal

The court ruled that sending Holck to India would violate Denmark's extradition act due to a risk that he would be subjected to treatment in breach of the European Convention on Human Rights, according to Reuters.

Previously, Holck had confessed to a Danish court to being part of a group of seven individuals who smuggled weapons into West Bengal aboard a Russian cargo plane on the night of December 17, 1995.

Notably, the Purulia Arms Drop was an illegal arms drop that happened on December 17, 1995 in the Purulia district of West Bengal. The arms were dropped from an Antonov An-26 aircraft before

being intercepted by an Indian Air Force aircraft. Five Latvian citizens and Peter Bleach, a British citizen and an ex-Special Air Service officer were arrested, while the organizer 'Kim Davy' alias Niels Christian managed to escape. India first asked Denmark to extradite Holck in 2002. The government agreed, but two Danish courts rejected his extradition, saying he would risk torture or other inhumane treatment in India.

He has led multiple critical efforts as both a technical lead and manager, working on infrastructure systems and machine learning models. At Google's scale, manually reviewing each ad is im-

practical, necessitating a combination of ML models and heuristics for automatic ad review, with manual reviewers handling cases where classifiers are uncertain. According to the Google Ads Safety Annual Report for last year, his team removed over 5 billion ads for policy violations, restricted 6.9 billion ads in sensitive areas like financial services and healthcare, and suspended more than 12 million advertiser accounts.

According to his family members Tushar has built critical infrastructure and distributed real-time systems to classify billions of ads daily. He has also developed state-of-the-art machine learning multimodal

models to achieve top classification accuracy. With the rise of Generative AI, Dogra's team introduced novel techniques to efficiently scale Large Language Models (LLMs) for policy classification.

policy classification.

This innovation allowed the detection of twice as many bad ads at a fraction of the cost of running LLMs on all ads. Their work was published and presented at a leading international Data Mining Conference this year.

Currently, Tushar manages a team across multiple time zones, continuously developing scalable systems to provide the best policy experience to advertisers and introducing novel techniques to

Here's how to treat swimmer's ear infection

wimmer's ear or otitis externa is an infection in the outer ear canal caused by water that remains in the ear, which creates a moist environment that aids bacterial growth. This infection is not only caused by swimming and can be the result of aggressively inserting objects such as cotton swabs, toothpicks, etc., which damage the ear's canal. Here are some home remedies that can help you treat this

results

Olive oil This oil has antiseptic properties that can treat the infection. You can also add other antimicrobial and soothing ingredients such as garlic and/or Vitamin E oil to the oil to enhance its effectiveness. Grate two to three pieces of garlic and soak it in two tablespoons of olive oil overnight. In the morning, add 5 drops of vitamin E oil, strain and thrice a day into your infected ear.

Warm compress Heat helps promote the flow of any fluid stuck inside the ear, thereby alleviating pain. Soak a washcloth in some hot water and squeeze out the excess. Place this over your infected ear for a few minutes and repeat after every 15 minutes, if needed.

White vinegar The acid makes the ear canal less hospitable for bacterial growth and reduces itchiness. Combine two to three teaspoons each of white vinegar and rubbing alcohol in a bowl. Now, put

Rubbing alcohol Isopropyl alcohol's acidic nature helps eliminate any bacteria and drain the water in your ear. Upon application, the alcohol evaporates quickly, leaving you with clean, dry ears. Put six to seven drops of alcohol and wiggle your infected ear with a clean finger. After a few minutes, flip your head the other way. Follow this on a daily basis after a swim, as

a precautionary method.

SIRSA, AUG 30

30th, August.The General Secretary of the All India Congress, former Union Minister, and MP from Sirsa, Kumari Selja said that while the BJP government of the state is busy patting itself on the back for its development, the people of the state are struggling for basic facilities. Essential services such as health, education, electricity, and water have been confined to paper. The state's healthcare services are the most fragile; deliveries are happening either on hospital floors or outside the hospitals, there are places without doctors, and where there are doctors, there are no medicines or paramedical staff. Government hospitals have been reduced to mere referral centers. Patients are

misled about the Ayushman cards, and such patients do not even receive treatment when doctors are not paid. The public is aware of all this and cannot be misled. The people, frustrated for the past ten years, have now decided to oust the BJP government, and in this election, the public will teach the BJP a lesson by voting against it. In a statement

Selja said that according to the standards of the World Health nurses, Organization (WHO), there should be one sub-health center for every 5,000 people, one Primary Health Center (PHC) for every 30,000 people, and one Community Health Center (CHC) for a population of 80,000 to 1.2 lakh in rural areas to provide healthcare facilities to every citizen. Currently, 2,667 subhealth centers, 532 primary health centers, and 128 community health centers are operational in the state. According to the needs of the current population, there is a shortfall of 634 sub-health centers, 81 primary health centers, and 53 community centers. The current healthcare infrastructure is not up to the required level. Even in the existing facilities,

of specialist doctors, staff radiographers, pharmacists, lab technicians, and multipurpose cadres. She said that a CHC should have six specialist doctors (a surgeon, a gynecologist, a physician, a pediatrician, an orthopedic specialist, and an anesthetist). Several schemes were mentioned by the state to improve public health, but their benefits have not reached the needy. What is the use of such false promises and so-called schemes? Initially, the Chief Minister's Health Survey Scheme was launched, which was later renamed the "Nirogi Haryana Scheme," indicating that government is more interested in changing the names of schemes rather than implementing them.

All Haryana Roadways Workers Union meeting held

RAHUL KOHLI

YAMUNA NAGAR: House meeting of All Haryana Roadways Workers Union was concluded under chairmanship of Depot Pradhan Rajinder Kamboj. Main agenda of meeting was to discuss the problems of depot related employees and UPS. Chairman of disciplinary committee, Hari Narayan Sharma, who was present in meeting, while speaking on UPS said that government is saying that this scheme is similar to OPS. If this is so, then why does government not repeal PFRDA Act and implement old pension. He said that UPS is even worse than NPS because in NPS, 24% of basic salary plus DA and 60% of total deposit amount is paid in cash on retirement, but in UPS, in lieu of every 6 months of service, one-tenth of monthly salary plus DA will be added and paid in cash on retirement and biggest surprise is that on 20 February 2023, government had constituted a committee for UPS. Government imposed this UPS on employees. In old pension scheme, no contribution of employees is deducted and 40% of pension amount can also be computed on retirement and Pay Commission Like pay revision, pension is also revised.

aharashtra Deputy Chief Minister Devendra Fadbavis' wife Amruta and actor Salman Khan on Wednesday attended an event and appealed for eco-friendly Ganpati idols for the upcoming Ganpati festival in Mumbai

Today, there is an event which celebrates responsibility. Our Ganeshotsav will be celebrated on 7th September. Children have made Ganesh idols using mud and other eco-friendly items. They have become our ambassadors and are telling us to definitely take our traditions forward, in an eco-friendly way," Amruta told

"It will go a long way and our future generations will also benefit from it. On one hand, tradition and on the other hand, our eco-friendly practices, so that nature remains happy and our traditions also remain happy, so these children will

showcase how we can do this." she added. Salman's sister Alvira and actress Sonali Bendre, too, attended the event. In the visuals captured by the shutterbugs, Salman and Sonali were seen greeting each other with a warm hug. They were also seated together. The event, organized by the Divyaj Foundation as part of the "Bacche Bole Morya" initiative, aimed to encourage the use of sustainable practices during Ganesh Chaturthi. The initiative focused on educating children about the importance of using biodegradable materials to prevent environmental harm caused by non-biodegradable idols. During the event, students from BMC schools across Mumbai showcased eco-friendly Ganesh idols they had made from natural materials.
