AGENCY
NEW DELHI, MAY 28

The Cabinet Committee on Economic Affairs (CCEA), chaired by Prime Minister Narendra Modi, has approved an increase in the Minimum Support Price (MSP) for various kharif crops for the 2025-26 marketing season.

The MSP for common paddy has been raised by 3%, now set at 2,369 per quintal, while the Grade A variety will be available at 2,389 per quintal, reflecting a 69 increase from the previous year.

Among pulses, the MSP for tur (arhar) has been revised upward by 450 to 8,000 per quintal, while urad has seen a 400 increase to 7,800 per quintal. Moong MSP has also been adjusted, rising by 86 to 8,768 per quintal. Union Minister for Information and Broadcasting, Ashwini Vaishnaw, emphasised that the government's decision aims to provide farmers with fair and remunerative prices for their produce. Notably, nigerseed has received the highest absolute increase in MSP, followed by ragi (highest 14% in percentage terms), cotton, and sesamum. The revised prices align with the commitment made in the Union Budget 2018-19 to ensure MSPs are set at 1.5 times the All-India weighted average cost of production.

Cabinet approves continuation of MISS for FY 2025-26

NEW DELHI (UNI): The Cabinet chaired by Prime Minister Narendra Modi on Wednesday approved continuation of Modified Interest Subvention Scheme (MISS) for FY 2025-26 with existing 1.5 percent Interest Subvention (IS). Addressing the media after the Cabinet meeting, Union Minister Ashwini Vaishnaw said, "The cost of working capital of the farmers has been reduced by the Interest Subvention Scheme. Special emphasis has been laid on providing a capital of Rs two lakh for an interest rate of four percent, under the scheme." MISS is a Central Sector Scheme aimed at ensuring the availability of short-term credit to farmers at an affordable interest rate through Kisan Credit card (KCC). Under this scheme, farmers received short-term loans of up to Rs three lakh through Kisan Credit Cards (KCC) at a subsidised interest rate of seven percent, with 1.5 percent interest subvention provided to eligible lending institutions.

Land Pooling is for farmers profit and to end corruption of illegal colonisers : Mann

RAWEL BHINDER
PATIALA: Punjab Chief Minister Bhagwant Mann addressed concerns and misconceptions surrounding the state's land pooling policy during an extensive interaction with the people during his 'AAP Sarkar, Aapke Duwar' Program in Patiala. With an emphasis on transparency, inclusivity, and the welfare of the people, CM Mann reassured the public that the government is not acquiring land forcibly but is, instead, seeking the consent and input of farmers and landowners for sustainable urban development projects.

Refuting rumors spread by opposition parties to further their own propaganda against this transparent and public friendly scheme, CM Mann said, "Some are creating baseless panic that the government plans to forcibly acquire your land. I am here today to clarify that we are not taking away anyone's land without their agreement. We are here to seek your advice, ensure your participation, and bring development to your doorstep."

Civil defence mock drill to be conducted in bordering states today

AGENCY
NEW DELHI, MAY 28

The states to have civil defence mock drills include Gujarat, Rajasthan, Punjab, Haryana and some parts of Jammu and Kashmir. The annouNCMent of the drills come in the wake of India's Operation Sindoor, which targeted terror hideouts in Pakistan and Pakistan-occupied Kashmir (PoK).

The Haryana government will conduct a civil defence exercise, named Operation Shield across all 22 of the state's districts to vet its emergency preparedness.

Scheduled to take place between 5 pm and 9 pm, the drill is being organised under the guidance of the Union Ministry of Home Affairs, to simulate critical incidents such as air raids, drone attacks, and other wartime scenarios in the light of current national security concerns, an official said. Earlier this month, mock drills were performed across the country under 'Operation Abhyaas'. Mock drills simulating multiple hostile scenarios like air raids, fire emergencies, and search and rescue operations among others were carried out in several states and Union Territories (UTs).

From Nabha jailbreak to narco empire: Akali Dal has long history of lawlessness and chaos: CM Mann

RAKESH JINDAL
NABHA, MAY 28

Punjab Chief Minister Bhagwant Mann launched a scathing attack on Shiromani Akali Dal leader Bikram Majithia, accusing him of hypocrisy and attempting to mislead the public through baseless propaganda. Addressing the media, Mann dismantled Majithia's recent claims while highlighting Akali Dal's dubious record during its tenure.

CM Mann slammed Bikram Majithia for politicising a recent tragic incident in Amritsar where a poor man lost his life while attempting to dispose of a live explosive device. Mann said, "Majithia questions law and order. But who is he to speak? During your regime, an SHO was shot while trying to protect the honour of his daughter, and slogans of 'Majithia Zindabad' were raised. Have you forgotten this?"Mann reminded people of the Nabha Jailbreak incident during the Akali regime and questioned the accountability of leaders like Majithia. He emphasized how Akali leaders enabled drug mafias and gangsters, flooding Punjab with drugs and crime. "Whenever drug smugglers or mafias are caught, their connections inevitably lead back to Akali leaders," Mann said.Mann said, "Majithia represents a legacy where the poor were jailed for standing up, while the powerful looted Punjab without consequence." He added, "The Akali Dal built an empire of corruption, allowing unchecked gangsters and smugglers to thrive. Now, they try to posture as saviors of Punjab. The people will no longer buy into their lies."CM Mann drew a stark contrast between the governance models of the AAP and Akali Dal. "Unlike Majithia, who thinks only of his personal benefits, my government is committed to policies that prioritize Punjab's common people.

We will never sign off on any policy that harms Punjab or its people," Mann declared.Exposing Majithia's Double StandardsMann also lashed out at Majithia's hypocrisy in calling for law and order reforms. "Under Badals and Majithia's leadership, Akali Dal became a symbol of lawlessness and greed. They are responsible for throwing Punjab into the quagmire of drugs and crime," Mann stated.CM Mann contrasted his personal property with the opulence of Akali leaders.

"Every election, I have declared my assets. My wealth has consistently reduced because I serve Punjab, not myself. Can Majithia say the same?" Mann challenged.Mann also delivered a strong warning to corrupt leaders: "Those who exploit the poor and rob Punjab will face justice. No amount of wealth can shield you from the consequences of your actions. Remember, the prayers of the poor and honest always reach God, and their curses are unstoppable."Concluding his remarks, CM Mann urged the people of Punjab to reject the Akali Dal's false narratives and to support honest governance.

Anuj Khosla, close to captain and Tarun Chugh, helped save drug smuggler: Kang

GAURAV GOEL
CHANDIGARH, MAY 28

The Bharatiya Janata Party (BJP) has come under severe fire after one of its Patiala councillors, Anuj Khosla, signed a bail bond for an accused drug smuggler.

Aam Aadmi Party (AAP) MP Malvinder Singh Kang launched a scathing attack on the BJP, alleging that the party is the real protector of drug traffickers in Punjab.

He claimed BJP leaders repeatedly defend smugglers and provide them political shelter.Kang presented a photograph to the media showing Anuj Khosla with senior BJP leader and former Chief Minister Captain Amarinder Singh and BJP National Secretary Tarun Chugh, asserting that Khosla is closely associated with both of them.Kang stated that Anuj Khosla is extremely close to Captain Amarinder Singh and has been organizing all his programs in Patiala. He maintains strong ties with all major BJP leaders and is often seen at BJP events.On March 29, 2025, BJP councillor Anuj Khosla submitted an affidavit in court to secure the bail of Khushjot Singh, who had an FIR lodged against him under the NDPS Act for drug trafficking.

Kang highlighted that the Punjab government is conducting a war-like campaign titled "Yudh Nasheyan Virodh" (War Against Drugs) to eradicate the drug menace from the roots. Due to this campaign, the entire Punjab has united against drugs and traffickers. Meanwhile, BJP leaders are engaged in helping drug smugglers secure bail. According to Kang, BJP does not want drugs to be eradicated from Punjab, as many of its leaders have deep connections with drug mafias.He further said that the roots of today's drug crisis in Punjab were planted during the BJP-Akali coalition government. These parties protected drug traffickers, ruining the future of thousands of youth and destroying countless families.

For their own financial gain, they partnered with drug traders and helped promote the trade. Punjab is now bearing the consequences of those actions. Kang emphasized that the AAP government is committed to eliminating drugs from Punjab. Hundreds of drug traffickers are being acted against daily. In the last two months alone, over 10,000 traffickers have been arrested and thousands of kilograms of narcotics have been seized.Regarding drug-related issues, Chief Minister Bhagwant Mann's instructions are crystal clear: whether it is high-ranking police officials like SSPs or SHOs or drug traders connected to politicians, strict action will be taken against all.

DINESH AGARWAL
SHIMLA, MAY 28

While addressing the media persons here today, Public Works Minister, Vikramaditya Singh said that the State Government was committed to provide justice to the family of late Engineer Vimal Negi and will co-operate the Central Bureau of Investigation (CBI) at all levels.

He said that Chief Minister Thakur Sukhvinder Singh Sukhu was quite clear in his decision to take action against the erring officers, as indiscipline of sorts, he said won't be tolerated. No one is above the law and the rules of service, he remarked.

The Government accepts the decision of the High Court to let CBI conduct the inquiry and will cooperate with the agency wherever they require the assistance of the State government.

He said that the BJP was quite perplexed and had submitted the memorandum to the Governor against the government in haste, which is baseless. The Government will complete its full term and the 'ifs and buts' of the BJP won't make any difference and so their conspiracies. The BJP is involved in 'witch hunting' simply because of their own opinion and political gains.

The Minister said that this was not the time to do politics over the death of Vimal Negi. There are certain issues in public interest irrespective of party politics and opposition should abstain taking political mileage over the matter and rather should join hands so that both the ends of justice could meet in a fair and transparent manner.

Positive thinking will let you do everything better than negative thinking will.

Editorial

Bright side

Foreign direct investments have had an ambiguous position in the discourse of economic development. On the one hand, FDI is viewed as an augmented source of scarce investment funds and a contributor to macroeconomic growth. On the other hand, it is perceived to be a source of exploitation where foreign firms use cheap labour and slack regulations to produce at low costs to sell at very high profits, most of which are repatriated to the home country of the investor. India has moved from holding the latter worldview to the more modern one of viewing FDI as a positive feature of economic development. Indeed, India has not only seen a growing flow of FDI since the economy was opened up but Indian firms are also moving into foreign markets with growing regularity. The latest data available for the financial year, 2024-25, have, however, raised doubts as to what exactly the numbers signify. For the year in question, the inflow of FDI was to the tune of $81 billion growing at 13.7% from the previous year. The outward foreign investments by Indian firms also grew from $16.7 billion in 2023-24 to $29.2 billion in 2024-25. Both these are positive indicators of market integration and of India emerging as a preferred destination for foreign investments; they also reflect the growing strength of Indian firms that can now compete in international markets.

There is though concern regarding the repatriation of earnings by foreign firms operating in India. This figure also grew during the last financial year, rising from $44.5 billion in 2023-24 to $51.5 billion in 2024-25. This can be attributed to a number of reasons. First, the latter part of 2024-25 was marked by an extraordinary degree of uncertainty in international trade and investments due to the rapidly shifting policies of the United States of America. Firms may have preferred to hold on to their earnings before reinvesting, waiting for the policy war to stabilise. The second reason is a statistical one. There has been no significant increase in repatriations as a proportion of new foreign investments entering the country in 2024-25 as compared to 2023-24. Finally, it might be noted that while India's attractiveness as an investment destination may not have improved much during the last year, the economy's relative attractiveness has certainly increased owing to a stable government and clear policies. Moreover, India's balance of payments, the outcome of robust foreign exchange reserves, remains sound. These augur well for India and FDIs.

FDI inflow into India grows 14% in 2024-25

FDI flows into India increased 14 per cent to USD 81.04 billion in the recently concluded financial year 2024-25, the Commerce Ministry said in a statement Tuesday.Over the past decade, FDI inflows have seen a steady rise--from USD 36.05 billion in 2013-14 to USD 81.04 billion (provisional) in 2024-25.The central government has put in place an investor-friendly Foreign Direct Investment (FDI) policy, under which most sectors are open for 100 per cent FDI through the automatic route, the commerce ministry boasted.The FDI policy is reviewed on an ongoing basis to ensure that India remains an attractive and competitive investment destination, the commerce ministry statement added.Coming to 2024-25, the services sector emerged as the top recipient of FDI equity, attracting 19 per cent of total inflows, followed by computer software and hardware (16 per cent) and trading (8 per cent). FDI in the services sector rose by 40.77 per cent to USD 9.35 billion from USD 6.64 billion in the previous year.India is also becoming a hub for manufacturing FDI, which grew by 18 per cent in 2024-25, reaching USD 19.04 billion compared to USD 16.12 billion in 2023-24.

Maharashtra accounted for the highest share (39 per cent) of total FDI equity inflows in 2024-25, followed by Karnataka (13 per cent) and Delhi (12 per cent). Among source countries, Singapore led with 30 per cent share, followed by Mauritius (17 per cent) and the United States (11 per cent).Over the last eleven financial years (2014-25), India attracted FDI worth USD 748.78 billion, reflecting a 143 per cent increase over the previous eleven years (2003-14), which saw USD 308.38 billion in inflows. This constitutes nearly 70 per cent of the total USD 1,072.36 billion in FDI received over the past 25 years.Additionally, the number of source countries for FDI increased from 89 in 2013-14 to 112 in 2024-25, said the commerce ministry."In the regulatory domain, the Government has undertaken transformative reforms across multiple sectors to liberalize FDI norms. Between 2014 and 2019, significant reforms included increased FDI caps in Defence, Insurance, and Pension sectors, and liberalised policies for Construction, Civil Aviation, and Single Brand Retail Trading," the statement noted.From 2019 to 2024, notable measures included allowing 100 per cent FDI under the automatic route in coal mining, contract manufacturing, and insurance intermediaries. In 2025, the Union Budget proposed increasing the FDI limit from 74 per cent to 100 per cent for companies investing their entire premium within India.

POEM

Defamation

Where are those tears in your eyes, my child? How horrid of them to be always scolding you for nothing!

You have stained your fingers and face with ink while writing- is that why they call you dirty?

O, fie! Would they dare to call the full moon dirty because it has smudged its face with ink?

Rabindranath Tagore

For every little trifle they blame you, my child. They are ready to find fault for nothing. You tore your clothes while playing-is that why they call you untidy?

O, fie! What would they call an autumn morning that smiles through its ragged clouds? Take no heed of what they say to you, my child.

They make a long list of your misdeeds.

Everybody knows how you love sweet things-is that why theycall you greedy?

O, fie! What then would they call us who love you?.

Rabindranath Tagore

Hail Swadeshi, strike fear in our enemies

On Tuesday, when Prime Minister Modi, speaking from Gujarat, renewed his call to make India a developed nation by 2047 and to swiftly transition from the world's fourth-largest economy to the third, his message carried a deeper, decisive note: to achieve this goal, India must embrace Swadeshi—the use and promotion of indigenous products.

This is more than just a patriotic slogan. It is a clear strategy aimed at safeguarding national interests—especially at a time when India faces both internal challenges and external hostility. On one hand, the nation is neutralizing threats from its terror-infested neighbor, while on the other, global powers like the US and China frequently attempt to thwart India's rise as a developed force.

China, in particular, has crossed limits. It exports billions of rupees' worth of goods to India, amassing enormous profits. With those very earnings, it sells weapons to Pakistan at discounted rates. It publicly sides with our enemy, questions India's right to execute Operation Sindoor, and absurdly suggests we should have provided "proof" of Pakistan's involvement in terrorist attacks.

But did China fail to notice how, after the May 7 operation, Pakistan wrapped slain terrorists in its national flag and gave them a hero's farewell? That military officers and politicians attended the funerals and offered prayers? That Pakistan still harbors wanted terrorists like Hafiz Saeed, Masood Azhar, and Dawood Ibrahim? That Osama bin Laden was hidden in Abbottabad until the Americans found and eliminated him?

Yet China continues to turn a blind eye. Is there a greater example of hypocrisy?

China Supports Terror, Not Peace

Let me say this directly to China: by blindly backing Pakistan—a proven terrorist state—you are supporting terror itself. While you pretend friendship with India, you shield Pakistan at every level: by using your UN veto to protect terrorists, by providing economic lifelines to a near-bankrupt state, and by supplying it with cheap weaponry. All of this is part of a calculated game. China does nothing without its own benefit in mind. Its ultimate goal is to keep India distracted and, at the right moment, absorb parts of Pakistan into its own territory.

Time for a Swadeshi Revolution

Prime Minister Modi has long championed the cause of Aatmanirbhar Bharat (Self-Reliant India). But this week, he went a step further—urging Indians to completely abandon foreign products, not just for economic reasons but as a necessity for national security.

There are many benefits to this shift. Embracing indigenous products will boost local industries, create employment, offer farmers better prices for raw materials, and increase tax revenues. This money can then be invested in infrastructure, education, and healthcare. Per capita income will rise, living standards will improve, and India's GDP will grow. All of these are critical indicators of a developed nation.

Modi also urged citizens to take stock of everything they use at home—from morning till night—and identify where Indian alternatives can be adopted.

Boycott Chinese Products—It's a Patriotic Duty

I believe that if every Indian begins by boycotting Chinese products, we'll strike a dual blow: supporting our economy while hurting China's. Anyone who calls themselves a true child of Bharat Mata must take a vow today to reject Chinese goods.

Here are just some of the Chinese products we must stop buying immediately:

•Smartphones: MI, Realme, Oppo, Poco

• Tempered glass brands: Aligned, Baseus

• Smart TVs: MI, Realme, TCL

• Laptops: OnePlus, Lenovo, Huawei

•ACs: Haier, Midea, Hisense, TCL

• Refrigerators & Washing Machines: Haier, Hisense, Midea

• Other items: CCTV cameras, decorative lights, Holi water guns, battery-operated toys, artificial jewelry, plastic containers, coffee makers, folding chairs, even idols of Lord Ganesh.

Buying these products supports the enemy. This message must echo across the nation.

Before making a purchase, ask the shopkeeper: Is this Chinese? If it is—don't buy it, even if it causes some inconvenience. Enduring temporary difficulty is better than funding those who arm our enemies.

Policy Support for Swadeshi

I urge the government to impose a 100% tariff on Chinese goods—make them unaffordable and unattractive. Discourage importers and retailers from stocking them. At the same time, empower Indian manufacturers with incentives to produce affordable, high-quality alternatives that truly reflect the spirit of Swadeshi.

Just as Operation Sindoor united the country across political and ideological divides, the Swadeshi movement—reminiscent of the 1995 revival—can rekindle a powerful wave of patriotism.

Now is the time. Let every Indian chant: "Swadeshi ki Jai! Dushmanon mein Bhay!"

Victory to indigenous enterprise. Fear to our foes.

'Harry Potter' series finds its Harry, Ron, and Hermoine

HBO's 'Harry Potter' TV series has officially found its Harry, Ron and Hermione. Dominic McLaughlin, Arabella Stanton and Alastair Stout will step into the shoes of Daniel Radcliffe, Emma Watson and Rupert Grint to essay the roles of Harry Potter, Hermione Granger and Ron Weasley. Welcoming the new actors on board, the makers on Instagram wrote, "Dear Mr. Potter, Miss Granger, and Mr. Weasley: We are pleased to inform you that you have a place at Hogwarts School of Witchcraft and Wizardry. Please welcome Dominic McLaughlin as Harry Potter, Arabella Stanton as Hermione Granger, and Alastair Stout as Ron Weasley to the HBO Original Series Harry Potter."

Over 30,000 actors auditioned for the lead roles since HBO launched an open casting call last fall, as per Variety. Speaking about the series, showrunner Francesca Gardiner and executive producer and director Mark Mylod in a statement said, "After an extraordinary search led by casting directors Lucy Bevan and Emily Brockmann, we are delighted to announce we have found our Harry, Hermione, and Ron. The talent of these three unique actors is wonderful to behold, and we cannot wait for the world to witness their magic together onscreen. We would like to thank all the tens of thousands of children who auditioned. It's been a real pleasure to discover the plethora of young talent out there."The 'Harry Potter' franchise launched Daniel Radcliffe, Emma Watson and Rupert Grint to worldwide fame in the early 2000s, and the HBO series could very well do the same for McLaughlin, Stanton and Stout, who are largely newcomers. McLaughlin acted in "Grow," an upcoming comedy on Sky starring Nick Frost and Golda Rosheuvel, while Stanton starred as Matilda in "Matilda: The Musical" on the West End from 2023-2024. "Harry Potter" will be Stout's first major role.The series also features John Lithgow ("Conclave," "The Crown") as Albus Dumbledore, Janet McTeer ("Mission: Impossible - The Final Reckoning," "The White Queen") as Minerva McGonagall, Paapa Essiedu ("I May Destroy You," "Gangs of London") as Severus Snape, Nick Frost ("Shaun of the Dead," "Hot Fuzz") as Rubeus Hagrid, Luke Thallon (Tom Stoppard's "Leopoldstadt," Rupert Goold's "Patriots") as Quirinus Quirrell and Paul Whitehouse ("The Fast Show," "Harry & Paul") as Argus Filch. The best-selling books' author, JK Rowling, will act as an executive producer on the show, which HBO has said will be a "faithful adaptation" of her books.

Pushpa 2: The Rule set for a thunderous World Television Premiere on Zee Cinema with a direct call from Pushpa himself!

CHANDIGARH : The Pushpa phenomenon is back and this time, it's louder, bolder and coming straight to your television screens. Pushpa 2: The Rule premieres on Saturday, 31st May at 7:30 PM only on Zee Cinema, and to match the scale of the film, the channel is rolling out a promotional campaign that's just as grand. In a unique move, Zee Cinema is bringing Pushpa closer to audiences than ever before — with specially designed promos where Pushpa himself directly appeals to viewers to sit together with their families and watch the premiere. These promos are more than just reminders - they're personal invites from the most iconic character of the year. To keep the experience authentic and powerful, Shreyas Talpade, who has voiced Pushpa in the Hindi version of the film, also lends his voice to these unique promos. His energetic, familiar delivery gives audiences a true taste of what's to come, building anticipation and bringing the film's flavour alive on television. Along with Hindi, the channel has also launched special Marathi promos, which speak directly to audiences in key regions across Maharashtra - adding yet another layer to the campaign's deep, regional connect. Speaking about the film and his involvement, Shreyas Talpade said, "Pushpa is not just a film anymore, it's a phenomenon that has captured hearts across the country. The kind of mass connect and energy it has been able to carry is unmatched. So, when Zee Cinema reached out to me with the unique promotion idea of making Pushpa directly appeal to its audience for the premiere, it felt like a natural extension of that world. Voicing for these promos was fun; they engage the audience in a hallmark Pushpa style, directly and powerfully. It's a fantastic way to build anticipation and bring families together in front of the screen and I'm thrilled to be a part of that experience."

Pushpa Fever Grips Happu Ki Ultan Paltan and Bhabiji Ghar Par Hai!

CHANDIGARH: Looks like the 'Pushpa' craze has swept through Happu Ki Ultan Paltan and Bhabiji Ghar Par Hai! Inspired by the powerful persona and swag of Pushpa Raj, the characters of these beloved &TV shows undergo dramatic changes, leaving their families and viewers! Shocked, amused, and glued to their screens. About &TV's Happu Ki Ultan Paltan upcoming track, Katori Amma aka Himani Shivpuri shares, "Rajesh (Geetanjali Mishra) is upset with Happu (Yogesh Tripathi) and lures him seductively only to give him an earful! Hurt by their fight, Beni (Vishwanath Chatterjee) distances himself and starts watching a film that unexpectedly changes his behaviour. Meanwhile, Katori Amma (Himani Shivpuri) wants to watch the same film but fails to get tickets. Happu tries and fails too, while Manohar (Nitin Jadhav) easily gets tickets for his wife and mother-in-law, leaving Happu embarrassed. Adding to his woes, a local cyclist keeps pestering him, and Happu can't muster the courage to fight back. Things get worse when Manohar poisons the Commissioner's mind, and Happu is made to do the "murga" punishment at the station! Just then, the schoolmaster visits to complain about the kids' mischief, and Happu somehow pacifies him. Later, he vents to Beni, who shows him the same movie. The film impacts Happu deeply. Happu suddenly transforms! He scolds Rajesh, shuts Amma down, turns the tables on Manohar, drags Hrithik (Aaryan Prajapati) to the station for third-degree interrogation, and beats up the cyclist badly. Everyone is shocked by his new aggressive avatar. The family tiptoes around in fear. Rajesh and Awadhesh (Urmila Sharma) corner Beni, who confesses everything. They beg Happu to return to normal, but he refuses."

Zee TV's Saru: Shagun Pandey gets into teacher mode, shares his homework for the role of Ved

CHANDIGARH : Zee TV's latest fiction offering, Saru, brings to the screen the inspiring journey of a determined young woman from Khares village in Rajasthan, who dares to challenge societal norms in pursuit of higher education. Bringing this powerful and ambitious story to life is debutante Mohak Matkar as Saru alongside the charming Shagun Pandey as Ved. Both actors have gone above and beyond to lend authenticity to their roles, not just through performance but by truly immersing themselves in the culture and spirit of the region. While Mohak captures Saru's raw determination and innocence, Shagun takes on a refreshing departure from his earlier roles to portray a thoughtful and composed English professor, Ved. Known for his high-energy performances, this role gave Shagun the chance to tap into a more intellectual and grounded persona, one that required him to consciously recalibrate his tone, body language, and overall presence. What sets his preparation apart is the depth of involvement he brought to the classroom sequences.
