Trump announces 25% tariffs on India from August 1

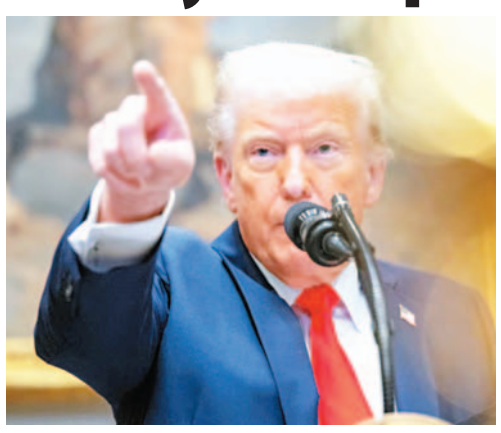

Also slaps penalty over purchase of Russian equipment & energy

AGENCY
WASHINGTON, JULY 30

US President Donald Trump on Wednesday announced 25% tariffs and an additional penalty on India ahead of the August 1 deadline.

In a post on Truth Social, Trump described India as America's "friend" but added that it will face 25% tariffs plus a penalty for buying Russian military equipment and oil. The US President reiterated that India has among the "highest tariffs in the world".

"Remember, while India is our friend, we have, over the years, done relatively little business with them because their Tariffs are far too high, among the highest in the World, and they have the most strenuous and obnoxious non-monetary Trade Barriers of any Country," Trump said on his social media platform. He said that since India imports a vast majority of its military equipment and energy needs from Russia, it will now have to face 25% tariffs plus a penalty from August 1. In a short but characteristically loud post, the American President referred to India as "our friend" but complained of "far too high tariffs (that are) among the highest in the world" and "the most strenuous and obnoxious non-monetary trade barriers of any country". He also accused India and China of paying for Russia's war - a now three-year-old military conflict Mr Trump claimed he could end within 24 hours of being sworn in on January 20. "Remember, while India is our friend... we have, over the years, done relatively little business with them because their tariffs are far too high, among the highest in the world. And they have the most strenuous and obnoxious non-monetary trade barriers of any country."

Will take steps to secure national interest: India

NEW DELHI: In its first response after Donald Trump's surprise announcement of a 25% tariff on goods exported to the US from India, plus a 'penalty', the Centre has said it is studying the implications of the move and will take all steps to "secure our national interest".

In a measured statement, in contrast to Mr Trump's bombast, the Ministry of Commerce and Industry said it has taken note of the announcement and stressed that India remains committed to negotiating a fair bilateral trade agreement with the United States. It also noted that negotiations on the trade deal have been going on for months. "The Government has taken note of a statement by the US President on bilateral trade. The Government is studying its implications. India and the US have been engaged in negotiations on concluding a fair, balanced and mutually beneficial bilateral trade agreement over the last few months. We remain committed to that objective," the ministry said.

One lakh deprived families to receive 100 sq yard plots : Haryana CM

CHANDIGARH: Haryana Chief Minister, Sh Nayab Singh Saini said that 1 lakh families categorized under Antyodaya and deprived of land will soon be allotted 100-square yard plots, along with the ownership documents. Following this milestone, the next phase will commence with the selection of an additional 1 lakh beneficiaries.

Furthermore, starting from August 15, government hospitals in 10 districts upgraded with modern facilities and equipment on the lines of private hospitals will begin offering treatment for all types of diseases. This initiative aims to provide the people of the state with high-quality healthcare services at affordable rates.

The Chief Minister was speaking during the program held in the villages of Dagali, Deeg, Beed Kalwa, and Dhanani under the Ladwa Assembly constituency, today. Residents in each village gave him a warm welcome. During the visit, the Chief Minister listened to public grievances and directed officials on the spot to address them promptly.

He announced Rs 55.41 lakh for a clean drinking water pipeline in village Dagali, Rs 52.64 lakh for village Beed Kalwa, and Rs 27.15 lakh for village Dhanani. In village Deeg, he laid the foundation stone for a Primary Health Centre to be constructed at a cost of over Rs 6.38 crore. Additionally, the Chief Minister announced Rs 21 lakh for development works in each of the four villages and assured that all demand letters submitted by the respective sarpanches would be forwarded to the concerned departments for necessary action.

8.8 Magnitude earthquake sends tsunami into coasts of Russia, Japan, US

NEW DELHI: One of the strongest earthquakes ever recorded struck Russia's Far East early Wednesday, sending tsunami waves into Japan and Hawaii and across the Pacific.

No substantial damage has been reported so far, but authorities warned people away from shorelines and said the risk could last more than a day.

Ports on the Kamchatka Peninsula in Russia near the 8.8 magnitude quake's epicenter flooded as residents fled inland, and frothy, white waves washed up to the shore in northern Japan. Cars jammed streets and highways in Hawaii's capital, with standstill traffic even in areas away from the shoreline.

People went to evacuation centers in affected areas of Japan, with memories fresh of the 2011 earthquake and tsunami that caused reactor meltdowns at a nuclear power plant.

Pb farmers launch tractor march against AAP's Land Pooling Policy

CHANDIGARH: Despite heavy rainfall, farmers across Punjab staged a massive tractor march in Amritsar today, protesting the state government's contentious land pooling policy. Organized under the banner of the Samyukt Kisan Morcha, the demonstration saw participation from farmers across various districts, including Ludhiana, where a procession moved from Balion village to the SDM office in Samrala.

The agitation, led by farmer leader Sarwan Singh Pandher, opposes the Punjab government's land acquisition policy, which farmers claim threatens their livelihoods. The issue has escalated to the Punjab and Haryana High Court, highlighting growing discontent. Senior farmer leader Balbir Singh Rajewal, present at the march, accused the government of issuing notifications for acquiring thousands of acres without surveys or expert consultation.

"This policy will ruin at least 20,000 farmer families and leave village laborers jobless," Rajewal stated, alleging a "major conspiracy" to erase 116 villages from the map.

Rajewal further labeled the policy as corrupt, claiming it aims to benefit corporate houses and builders in a scam worth at least Rs1 lakh crore. He criticized the government's promise of Rs1 lakh annual compensation per farmer, noting that the state has allocated Rs 655 crore for this purpose, which he deemed insufficient.

Encroachments in Shimla's Lower Bazar hamper emergency operations: SMC tells HC

AGENCY
SHIMLA, JULY 30

Shimla Municipal Corporation informed the Himachal Pradesh High Court that vital emergency response operations, including the movement of water tenders, are being severely disrupted in Shimla's Lower Bazar due to encroachments by shopkeepers and street vendors.

" A water tender recently had to navigate with extreme caution between CTO Chowk and Sher-e-Punjab as hawkers and shopkeepers had occupied the narrow lanes, obstructing the route." Counsel for the SMC informed the court on July 24.

A division bench comprising Chief Justice Gurmeet Singh Sandhawalia and Justice Ranjan Sharma was hearing a public interest litigation (CWPIL No.14 of 2014), when the Shimla Municipal Corporation and the State government submitted affidavits detailing the ongoing issues and remedial measures being taken.

The court was told that during a recent mock drill involving the Fire Department and SP Office, water tenders faced difficulty passing through Lower Bazar due to awnings, goods placed over water drains, and clothing displayed by shopkeepers, particularly near Desh Raj & Sons, Brother Hair Dresser, and Deepmala shop. The Municipal Corporation stated that 76 challans had been issued, and fines totalling Rs 76,000 had been collected from violators. Shopkeepers and vendors have been directed to furnish documents under the Street Vendors (Protection of Livelihood and Regulation of Street Vending) Act, 2014. In an attempt to decongest the area, the Corporation is working on shifting street vendors from Lower Bazar to a newly proposed Tehbazari market on the terrace of Ajeevika Bhawan near Subzi Mandi. Originally, this relocation was planned at Subzi Mandi ground, but that site has since been converted into a shopping mall-cum-MC office. The court reiterated its earlier directions dated June 26, 2025, for strict enforcement against encroachments. It also directed that the reply filed by the Tehbazari Association, which was reportedly not on record, be traced and placed in the file. The matter is scheduled for the next hearing on September 3, 2025.

As the keynote speaker in the seminar, Hindi professor Arun Kumar Kaihraba expressed his views on the life and thoughts of Shaheed Udham Singh and Hindi teacher Naresh Meet expressed his views on the subject of Premchand's contribution to literature. Arun Kumar Kaihraba said in his address that Udham Singh was born on 26 December 1899 in Sunam of Sangrur district. His childhood name was Sher Singh. His mother died at a very young age. After the death of his father in 1907, Sher Singh and his elder brother Mukta Singh became orphans. They were educated in the orphanage of Amritsar. The Jallianwala Bagh massacre on April 13, 1919 gave a new direction to Udham Singh's life. To take revenge for the cru-

elty of the British and their cruelty towards Indians, he joined the revolutionary stream of the Ghadar Party and the freedom movement. Despite not receiving much formal education, he traveled to various countries of the world and gained extensive experience. He said that after killing Michael O'Dwyer in London, he told the police his name is Ram Mohammad Singh Azad. This shows that Udham Singh believed in communal harmony and equality of all religions and considered this the basic mantra of freedom. He said that Udham Singh is such a soldier of the freedom struggle, whose contribution will never be forgotten. Speaking about Munshi Premchand, Naresh Meet said that Premchand is his favorite writer because he expressed the difficulties, inconsistencies and exploitation.

Village sarpanch Master Baldev Singh Saini observed that a significant portion of income from poor and middle-class families is wasted on tobacco, reducing the earning potential of individuals and leading to strained family relationships, domestic conflict, and societal disconnect. SHIV KUMAR SHARMA
GURGAON : In a unique confluence of tradition and empowerment, Dr. Payal Kanodia, Chairperson of the M3M Foundation, hosted a vibrant Teej celebration at Hotel Le Meridien, New Delhi. Organised in collaboration with Shri Praveen Khandelwal, Hon'ble Member of Parliament from Delhi, and noted social leader Shri Satyabhushan Jain, the celebration brought together luminaries across the political, social, and cultural spectrum.
Dr. Payal Kanodia remarked, "Teej is not only about celebrating tradition, but about celebrating women — from all walks of life. It was deeply moving to see our iMpower girls, who come from modest backgrounds, confidently leading a prestigious event with skill and grace".
The event was graced by the presence of esteemed Members of Parliament and their spouses, including Smt. Kamaljeet Sehrawat (MP, West Delhi), Shri Harsh Malhotra (MP, East Delhi), Shri Yogender Chandolia (MP, North West Delhi), Smt. Bansuri Swaraj (MP, Lok Sabha – NCT of Delhi), Shri Anurag Thakur (MP and former Union Minister), and Shri Arun Govil (Member of Lok Sabha, beloved for his iconic portrayal of Shri Ram). Also present were senior BJP leader, spokesperson Shri Shahnawaz Hussein, renowned industrialist, and former MP Shri Naveen Jindal. The Chief Minister of Delhi, Smt. Trained in professional beauty therapy, the iMpower trainees applied traditional mehndi for the guests, including women MPs and spouses of Parliamentarians. For many, it was a defining moment — a celebration of talent, self-worth, and the dignity of skilled work.

Through initiatives in education, skill development, and community welfare, thousands of women and youth have been empowered to lead lives of confidence and purpose. Poor figures

Much is said about the good that the reservations policy has done. Yet the employment scene appears to fall pitifully short of the ideal as far as quotas are concerned. In Central universities, 80% of posts for professors under the other backward classes category remain vacant as do 83% for the scheduled tribes. This information was given by the Union minister of state for education in reply to a question by the Rashtriya Janata Dal member of Parliament, Manoj Kumar Jha. The figures for associate professors' posts are 69% vacancies for OBC and 65% for ST. The scheduled castes fare fractionally better, with 51% of posts being vacant. The posts of assistant professors are better filled, with 23% vacant in OBC posts, 15% in ST and 14% in SC. In the general category, 39% posts of professors are unfilled and 16% of associate professors. The contrast is stark and embarrassing. Mr Jha also asked whether the 'none found suitable' numbers were greater for reserved seats, but there is apparently no record of that. It is obvious that in spite of levelling to some extent the field of education and development, the lacuna in recruiting quota candidates in the teaching system remains huge. Is this a glimpse into deep-seated prejudices that appear as fair assessment? It is certainly possible to infer a lack of political will to implement reservations for the purpose for which they were formulated.

Recently, the department of personnel and training refused to answer a right to information query about the number of backlog vacancies under SC/ST and OBC categories in the Union government. This was in spite of the fact that the questioner had appealed under the RTI Act and the appellant authority had ordered the DoPT to share the information. The questioner feels that the department either has faulty data collection or the numbers are too shocking to be revealed. What is being revealed, though, is the entrenched refusal to create balanced representation in work. The government itself has not done it. When the caste census is being hotly debated, this is not just ironical but also politically dangerous for the ruling regime. Years of creating vacancies cannot be corrected in a day. But the government must be able to show that it is trying. So far it does not seem so.

Gaza death toll tops 60,000 amid rising famine, malnutrition

At least 60,034 Palestinians have been killed by Israeli forces since the war on Gaza began in October 2023, the enclave's Ministry of Health said on Tuesday, amid intensifying bombardment and worsening famine conditions, Al Jazeera reported.According to medical sources cited by Al Jazeera, at least 62 more Palestinians, including 19 people seeking aid, were killed since dawn despite "pauses" announced to facilitate humanitarian deliveries.

Reporting from Deir el-Balah in central Gaza, Al Jazeera's Tareq Abu Azzoum said, "Local accounts indicate that Israel used booby-trapped robots, as well as tanks and drones, in what residents describe as one of the bloodiest nights in recent weeks.""This is a sign of a possible imminent Israeli ground manoeuvre, although Israel has not yet confirmed the objectives of the attack," Abu Azzoum added.

The latest violence comes amid an unfolding famine crisis, with the Integrated Food Security Phase Classification (IPC), a global hunger monitoring system, stating that famine thresholds have already been reached for food consumption in most of Gaza and for acute malnutrition in Gaza City."

Amid relentless conflict, mass displacement, severely restricted humanitarian access, and the collapse of essential services, including healthcare, the crisis has reached an alarming and deadly turning point," the IPC report stated.Food access has deteriorated sharply, with one in three residents going without food for days, the report noted. Between April and mid-July, more than 20,000 children were admitted for treatment of acute malnutrition, of which over 3,000 were severely affected.

The enclave's Health Ministry said on Monday that at least 147 people, including 88 children, have died from malnutrition since the war began. Al Jazeera added that starvation is impacting all sections of the population.Sima Bahous, executive director of UN Women, said one million women and girls in Gaza face the "unthinkable choice" of starving or risking their lives in search of food. "This horror must end," Bahous posted on social media, urging for unhindered aid access, release of captives, and a permanent ceasefire.

Doctors in Gaza are witnessing extreme cases of starvation. "Medical staff at Gaza's hospitals are seeing babies severely malnourished 'without muscles and fat tissue, just the skin over the bone'," Ahmed al-Farra, director of paediatrics and maternity at Nasser Hospital, told Al Jazeera.He added that malnutrition can severely impact brain development in infants. "Babies who have been malnourished will not have the required folic acid, B1 complex and polyunsaturated fatty acids that are essential for the composition of the central nervous system," he said.Al-Farra warned that this could impair reading, writing, and lead to depression and anxiety in later years.

Tanya Haj Hassan, a doctor with Doctors Without Borders (MSF), explained that even when food arrives, serious health complications remain."The reality is the problem doesn't end when the food arrives ... malnutrition impacts all aspects of the body's function," she told Al Jazeera."

Uyghurs are facing a full-fledged genocide

Rushan Abbas, the Founder and Executive Director of the Campaign for Uyghurs, exposed the ongoing atrocities perpetrated by the Chinese Communist Party (CCP) against the Uyghur population in Xinjiang, characterising the situation as an "active and full-fledged genocide" in a discussion with The Epoch Times.

Abbas, a dedicated human rights advocate and the Chairperson of the Executive Committee of the World Uyghur Congress, outlined various abuses, including mass detentions, forced labour, sterilisation, and organ harvesting, all witnessed by a largely indifferent international community.Abbas noted that her activism has incurred a significant personal toll. In 2018, soon after she publicly addressed the mass detention of Uyghurs in East Turkestan at the Hudson Institute, Chinese authorities detained her sister, which she believes was an act of retaliation.

"I've been a U.S. citizen since 1995 and have lived in the United States since 1989," she remarked. "But that didn't make a difference. They abducted my sister to retaliate against me."This action, she explained, is part of what she referred to as "transnational repression," a strategy employed by Beijing to target activists overseas by threatening or punishing their relatives still in China. She pointed to the existence of more than 100 secret Chinese police stations worldwide, including in the United States, which are said to monitor and intimidate diaspora communities, such as Uyghurs, Tibetans, Hong Kongers.

The Land of the Exile

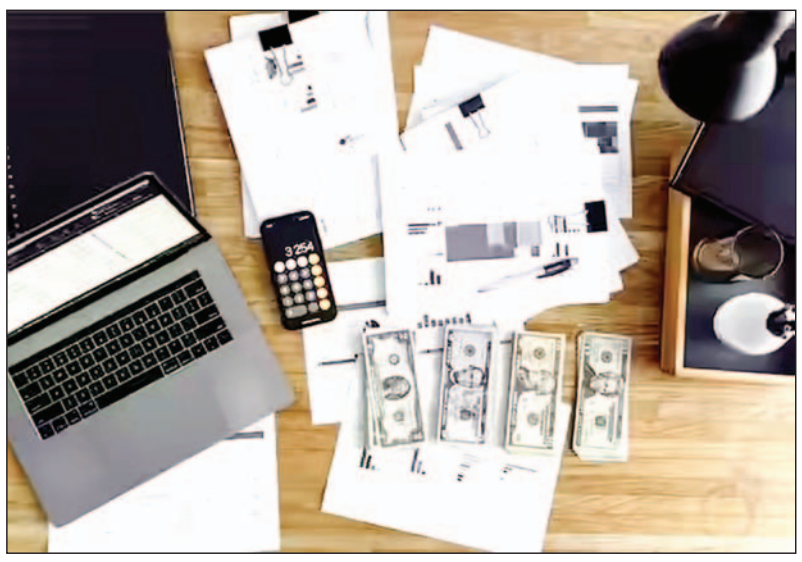

Rabindranath Tagore

Mother, the light has grown grey in the sky; I do not know what the time is. There is no fun in my play, so I have come to you. It is Saturday, our holiday.

Leave off your work, mother; sit here by the window and tell me where the desert of Tepantar in the fairy tale is. The shadow of the rains has covered the day from end to end. The fierce lightning is scratching the sky with its nails. When the clouds rumble and it thunders.

CEO pay in India averaged Rs 7.2 crore in FY24

The average compensation for Chief Executive Officers (CEOs) in India's listed companies touched Rs 7.2 crore, growing at an annual rate of 9 per cent over the last decade, according to a report by executive search firm Resource Bridge.

The report observed that Chief Financial Officers (CFOs), by comparison, drew an average of Rs 2.3 crore, with compensation levels rising 1.7 times over the same period.The report indicates that CEO compensation has doubled in the last 10 years, while CFO pay has registered a significant, though relatively moderate, growth."CEO's compensation more than doubled, from Rs 3.3 crore in FY15, to Rs 7.2 crore in FY24 - a 9 per cent CAGR growth over a 10-year period," the report finds.Interestingly, CEOs in the manufacturing sector continue to command some of the highest pay packages, while CFOs in service-led industries have emerged as top earners among their peers.

A notable regional disparity also comes through in the data as CEOs and CFOs in northern India command the highest compensation across the country, while those based in the east consistently earn the east. The trend holds across sectors and company sizes.Ownership structure also plays a decisive role in executive compensation. Multinational corporations, according to the report, continue to outpace Indian-owned firms in terms of pay at the top levels. Additionally, companies that cross critical turnover thresholds of Rs 5,000 crore, Rs 50,000 crore and Rs 1 lakh crore show a sharp upward inflexion in executive pay.The observation also shows a stark difference in pay between multinational firms and Indian firms.

According to the report, multinational companies (MNCs) in India pay their employees about 10-11 per cent more than similar-sized Indian companies.The CEO Compensation Report 2025 and CFO Compensation Report 2025 are the outcome of a three-month analysis of annual reports from nearly 1,000 listed companies, coupled with open-source financial data in the public domain.Spanning over 20 industry sectors and backed by data from FY15 to FY24, the report positions itself as one of the most comprehensive compensation studies for top leadership roles in the country.

Atlys unveils Visa offering to key international destinations for Rs 1

CHANDIGARH : In a first-of-its-kind initiative, Atlys is set to shake up India's travel landscape by launching the country's first-ever visa sale: "Atlys One Way Out." The visa processing platform will go live with the sale exclusively on the Atlys website for two days: August 4th and 5th.

During the two-day sale, Indian travellers will be able to apply for visas to a wide range of popular destinations, including the UAE, UK, Vietnam, Indonesia, Australia, South Africa, Egypt, and Hong Kong, among others, for just Rs1. Additionally, appointment bookings for countries requiring in-person visits, such as the United States and select Schengen nations, will also be available at just Rs1.

According to a report by the European Commission and Condé Nast Traveller, Indian applicants collectively lost over ₹664 crore in non-refundable visa fees across various countries in 2024 alone. This staggering figure highlights the financial strain often associated with international travel planning. Atlys's One Way Out sale addresses this very concern by dramatically lowering visa-related expenses.

"Atlys was created to eliminate friction from the visa process. With the One Way Out Sale, we are taking that mission even further," said Mohak Nahta, Founder and CEO of Atlys. "For the first time, travellers can get visas at a price that feels impossible. We want to challenge what people expect from this industry and prove that global travel can be truly within reach."

In the past 60 days, Atlys has observed an increase in search queries across a diverse range of destinations, including Vietnam, Indonesia, Georgia, the UK, and the UAE, with growth ranging between 18% and 44% compared to the preceding period. This momentum has primarily emerged from users in tier 1 and tier 2 cities, driven largely by Gen Z and millennials.

Chandigarh students document Tibetans living in exile in Dharamshala

CHANDIGARH: A group of students from Chandigarh spent a week researching the life of Tibetans living in Dharamshala. The students wrote pertinent articles and also made a video documentary to unravel how the Tibetans are trying their best to uphold their rich traditions and civilization after being ousted from Tibet by the repressive Chinese regime. The work of the students was supported by Edu Sensei, an education consultancy, and Kigen Academy, which specializes in project-based learning and examination services. The project was released in the form of a documentary and booklet called the Capstone Project - 'The Enchanting Realm -A Dharamshala Documentary'.

It is notable that a Capstone Project is a multifaceted assignment that serves as a culminating academic and intellectual programme for students, undertaken at the end of a research based study. Punita Vadhera, Founder of Edu Sensei, said, "Collectively, these students have not only gained knowledge but also skills that will empower their future endeavors." The head of the Capstone Project and the students' Mentor Aashita Singh Vadhera said, "We have unveiled a booklet and documentary wherein the research of the students has been compiled in the form of articles and pictures, film, and voice-overs.

108 Ambulance Service Saves Lives with Over 21,000 Patients Served & 248 Critical Deliveries Managed Onboard

AMRITSAR: Operated by Zenplus Private Limited Emergency Response Services (ERS) 108 in Punjab have continued to serve as a crucial lifeline for the people of the state, recording over 21,560 emergency responses in Amritsar district alone between January 2024 and June 2025. The scale and depth of service delivery once again underscore the reach, efficiency and trust placed in the 108 ambulance network across both urban and rural Punjab.

During this period, 248 critical deliveries were managed onboard ambulances across the state, with the highest numbers reported from Amritsar (22), Bathinda (21), Ludhiana (15), and Gurdaspur (13). These deliveries are a reflection of the exceptional preparedness and composure of the ambulance staff, who step up in time-sensitive, high-pressure situations to ensure safe outcomes for mothers and infants. The swift coordination between EMTs and trained drivers during such incidents speaks volumes about the system's responsiveness in emergencies.

To strengthen accessibility and cut down response time, 26 ambulance base points have been added in the Amritsar district—19 in rural areas and 7 in urban zones. Key locations include CHC Mehta, Gurdwara Sahib Baba Bakala, PHC Attari, and Civil Hospital Amritsar, each strategically selected to ensure a wider and faster reach across the district, particularly in underserved or remote locations.

The current fleet deployed in Amritsar comprises 25 Basic Life Support (BLS) ambulances and 1 Advanced Life Support (ALS) ambulance, designed to deliver immediate medical assistance depending on the severity of the emergency.

Rakshabandhan on Aug 9, auspicious time to tie Rakhi is from 5:35 am to 1:24 pm: Pt Krishna Avtar

YAGYA DUTT SHASTRI
PEHOWA: The festival of Raksha Bandhan, a symbol of love, affection and trust between brother and sister, will be celebrated this time on August 9. According to Hindu religion, Raksha Bandhan is celebrated on the full moon day of the month of Savan, but this year due to Bhadra Kaal, there was confusion among the people about the date. Pandit Krishna Avtar Nikku Ambalia informed that the full moon date will start at 2:12 pm on August 8 and will last till 1:21 pm on August 9. But from 2:12 pm on August 8 to 1:52 am on August 9, there will be Bhadra Kaal, which was considered inauspicious. It is believed that Rakhi was not tied during Bhadra period, so this time Raksha Bandhan will be celebrated on August 9 in Udaya Tithi. The auspicious time to tie Rakhi on this day will be from 5:35 am to 1:24 pm. Sisters can tie Rakhi to their brothers during this period.

Farmers to protest in Karnal on August 8, demand early procurement of paddy

CHAMANLAL
KARNAL, JULY 30

Farmers associated with the Bhartiya Kisan Union (Sar Chhotu Ram) will stage a protest in Karnal on August 8, gathering outside Super Mall and marching to the district secretariat to submit a memorandum addressed to the Chief Minister.

This decision was taken during a meeting of the union held at its Nissing office. Spokesperson Bahadur Mehla said the demonstration is part of a statewide call to action by the Haryana Kisan Mazdoor Sangharsh Morcha, which aims to press for farmers' key demands at the district level. The primary demand is to begin the paddy procurement process from September 25 and ensure that the government makes adequate arrangements in advance.

The union leaders also warned against using excuses such as moisture content to reject crops, urging a fair and farmer-friendly procurement policy. Other concerns raised included the acute shortage of fertilizers in Haryana.

The union demanded strict action against hoarders and black marketers, stating that the government's promise to double farmers' income rings hollow when basic inputs like fertilizers are unavailable.

Khushi Kapoor shares why she wants to have "communal wardrobe" with Janhvi Kapoor

Stealing clothes from a sibling's wardrobe is something most people relate to, and celebrities are no different. Actor Khushi Kapoor recently said that she doesn't need to borrow clothes from her sister Janhvi Kapoor because they already share what she calls a "communal wardrobe"."I feel like we have one communal wardrobe, so everything that's hers is automatically mine, so I don't need to steal anything from her closet," Khushi Kapoor told ANI.Khushi looked stunning as she turned a showstopper for the ace fashion designer Rimzim Dadu on Day 7 of Hyundai India Couture Week 2025. The two-piece design by Rimzim features a halter-neck bralette-style blouse with a sculptural, metallic texture. The neckline was accentuated with a choker-style necklace, complementing the silver tones. The look was completed with a matching metallic grey skirt tailored to fit her silhouette.Speaking to ANI, she shared what she liked most about the outfit, saying, " I like everything about this outfit. I like that it takes inspiration from the Banjara tribes of Gujarat, so I feel like there's a sense of home in it, and it kind of incorporates a sense of today's style with its edginess and its structure. It's actually made of steel, which is crazy, and each of these motifs are like piles linked together. So I like that it has a story to it and kind of makes me feel like I'm wearing something authentic and interesting. "She added that comfort plays a major role in how she selects her outfits."I think the most important thing is just feeling good and comfortable and confident in yourself. I think because I'm feeling really comfortable in what I'm wearing, and I'm really happy about my outfit and everything. I'm feeling really calm, so I think that's the most important thing," she said. Inspired by Gujarat's Banjara tribes, Rimzim Dadu's collection reimagines traditional crafts like Patola and mirror work through sculptural silhouettes and signature materials such as steel, metallic wires, and custom textiles.

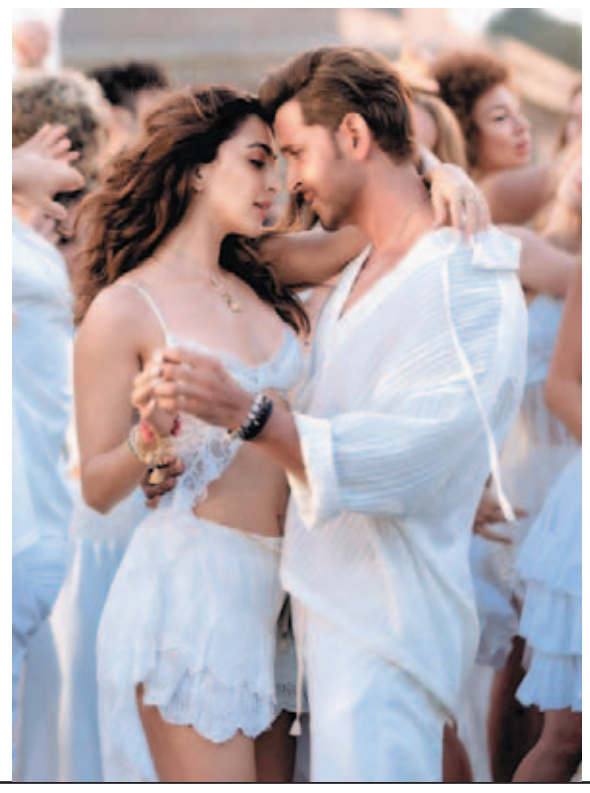

Megha Prasad makes a stormy entry into Kumkum Bhagya as Sonalika

CHANDIGARH: Zee TV's beloved show - Kumkum Bhagya - continues to deliver high voltage drama with evolving relationships and emotional twists, keeping viewers hooked to their TV screens. Recently, just as Shivansh (Namik Paul) and Prarthana (Pranali Rathod) were beginning to move past their differences, their past returned with Sonalika coming back into Shivansh's life. Making a stormy entry into the show is popular television actress Megha Prasad, who steps into the role of antagonist Sonalika, replacing Roopam Sharma who played the part earlier.

Megha, known for her impactful roles, stepped into the pivotal character with remarkable ease. With a strong screen presence, emotional depth, and confident portrayal of layered characters, Megha is all set to bring refreshing yet intense energy to Sonalika. And as Sonalika returns to Shivansh and Prathana's lives, she forms a secret alliance with Raunak (Akshay Dev Bindra) - whose grudges make him an ideal accomplice. With Raunak fuelling the fire and Sonalika tugging at emotional strings, the couple's newfound understanding is about to be tested and how! Speaking about the role, Megha Prasad said, "Playing Sonalika has been an incredibly special experience for me. She's bold, emotional, and completely unapologetic about what she wants. I love that she's not trying to be perfect. She knows her flaws and uses them as her strength. Teaming up with Raunak brings a whole new dynamic—it's not just drama, its strategy, emotion, and a little bit of danger.
